ADJOURN

In accordance with Florida Statute 286.0105: Any person who desires to appeal any decision at this meeting will need a record of the proceedings and for this purpose may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is based.

In accordance with Florida Statute 286.26: Persons with disabilities needing assistance to participate in any of these proceedings should contact Judd Lent, Clermont Fire Department, 352-394-7662 at least 48 hours in advance of the meeting.

City of Clermont
MINUTES
FIREFIGHTER RETIREMENT PLAN BOARD OF TRUSTEES MEETING
June 19, 2014

The Firefighters Retirement Plan Board of Trustees met in a regular meeting on Thursday, June 19, 2014 in the Council Chambers at City Hall. Firefighters' trustees present: Judd Lent, Joe Sylvestris, Adam Watkins, Jim Purvis and Sy Holzman. In addition: Finance Director Van Zile and Deputy City Clerk Noak. Attorney Steve Cyphen via conference call, and Paul Shamoun, Florida League of Cities, was present.

Board Member Adam Watkins was absent.

Chairman Lent called the meeting to order at 11:01am.

PUBLIC COMMENTS

Chairman Lent opened the meeting for public comments. There were no public comments.

MINUTES

Approval of minutes of Regular Meeting from March 20, 2014

> Board Member Purvis moved to approve the minutes; seconded by Board Member Holzman. The motion passed unanimously.

UNFINISHED BUSINESS

Discussion of Ordinance No. 2014-16 – City Code Chapter 46 – Pensions

Finance Director VanZile reviewed the Ordinance adopted by Council on June 10, 2014. The Ordinance revises Chapter 46 of the City Code to reference the pension plan documents and adoption agreement instead of containing the details. The Ordinance does not change any of the current plan benefits and any future changes will have to be approved by ordinance.

NEW BUSINESS

The Board discussed Adam Watkins absences and agreed the first absence was excused. Attorney Cyphen stated Mr. Watkins was appointed by the Board and can be removed at any time. He suggested calling Mr. Watkins to discuss the matter.

Board Member Sylvestris inquired if Fire Chief Bishop would receive credit for his time as a volunteer. Mr. Bishop was appointed as Fire Chief by the City Manager when the Fire Department was a Volunteer Fire Department. The time; if credited, would provide him with a 100 percent vested interest in the plan.

Paul Shamoun stated Fire Chief Bishop's volunteer service would be credited and treated the same as Paul Anderson's volunteer time was credited.

Chairman Lent stated Mr. Bishop is over the age of 52 and has over 10 years of service, so he would not be penalized. Fire Chief Bishop can request an actuary on his retirement plan benefit. Finance Director VanZile commented a rough estimate was provided to Mr. Bishop last year.

After further discussion, Chairman Lent stated Fire Chief Bishop should appear before the Board with further questions regarding the matter.

PLAN ADMINISTRATOR REPORT

Discussion of Investment Performance Report for Quarter Ending March 31, 2014.

Paul Shamoun presented the Investment Performance Report. The Fund made eight tenths of one percent for the quarter. The Bond Fund performed well over the quarter, making a percent and a half. The Bond Fund is forty percent of the portfolio and essentially all of the positive return for the quarter came from the Bond Fund. He reported the stock market was up approximately 350 points and by the end of June the fund should be producing at 6.2 percent.

The new income portfolio was added April 1, 2014 and will be on the next report.

There is concern regarding the International Manager, which has under-performed the benchmark for multiple quarters in a row. The League's advisory committee will meet to discuss the issue with the manager and also interview other potential managers.

ATTORNEY REPORT

Attorney Cyphen addressed the recent lump sum distribution provided to Paul Anderson and stated it was disruptive to the plan to pay out lump sums. The distribution should preferably be a monthly payment or a life annuity.

Finance Director VanZile stated the Board had not specifically approved the distribution. A letter was received by the League of Cities from Southern Actuarial Services outlining Mr. Anderson's options. The plan states the Board approves distributions the first meeting following distributions. The plan does not specifically state the distribution must be approved prior to the distribution.

Attorney Cyphen stated the Board should approve lump sum distributions.

Paul Shamoun commented Charles Carr; Plan Actuary, has been instructed not to provide a lump sum distribution calculation.

Attorney Cyphen stated the Board could place the issue on the next agenda for a vote. Chairman Lent asked if the change required approval from the Firefighters Union. Attorney Cyphen responded the City and the Firefighters Union would need to agree to amend the plan.

Chairman Lent stated the issue should be placed on the September meeting agenda to discuss the pros and cons of various options.

BILLS AND EXPENSES FOR APPROVAL

Approval of Expenses for Period March 15, 2014 – June 13, 2014.

Finance Director VanZile presented the plan expense report for March 15, 2014 through June 13, 2014.

> Board Member Holzman moved to approve the expense report; seconded by Board Member Silvestri. The motion passed unanimously.

Approval of New Member Distributions

Finance Director VanZile presented the new member distribution report.

> Board Member Purvis moved to approve the new member distribution report; seconded by Board Member Silvestri. The motion passed unanimously.

ADJOURN: With no further comments, this meeting was adjourned at 11:50am.

APPROVED: ______________________________
Chairman

ATTEST: _________________________
Tracy Ackroyd, City Clerk

Florida Municipal Pension Trust Fund – DB 60/40 Allocation

Executive Summary

As of June 30, 2014

60/40 Allocation

- The 60/40 Allocation rose 2.9% in the second quarter, below that of the target index and peer group of similarly-allocated funds, as challenging performance in the domestic equity allocations offset relative strength in the core plus fixed income strategy.
- Over the past 5 years, this allocation has recorded strong absolute returns, up almost 12% on average annually, which was well ahead of the absolute return expectations but lower than the target index and fund peer group, owing primarily to the risk-controlled posture and the market's increased risk appetite over the majority of this time frame.
- While this strategy has been challenged to keep pace with the target index and similarly-allocated peer group over the past 5-10 years, the lower risk profile has resulted in more favorable comparisons based on risk-adjusted returns and position this allocation to protect on the downside if market returns moderate or contract.

FMIvT Broad Market High Quality Bond Fund

- The Broad Market High Quality Bond Fund continued to rebound from the selloff last year, rising better than 1.5% in both the first and second quarters of this year, but modestly falling short of the Barclays Capital Aggregate A+ Index and the core fixed income peer group owing primarily to minimal exposure to the lower-rated securities.
- The fund has displayed a consistent pattern of performance, posting absolute returns of 4.7% annually over the past 10 years. While this performance is similar to the benchmark, it modestly lags the peer group during this period, as the high quality focus provided a headwind, particularly over the past five years.
- The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund, and have led to favorable risk adjusted returns compared with the primary benchmark over the past 10 years.

FMIvT Core Plus Fixed Income Fund

- The Core Plus Fixed Income Fund was added to the FMIvT lineup in April 2014 to provide broad exposure to the global fixed income markets, with the flexibility to invest across the full spectrum of security types, quality ratings and geography.
- The Fund has two underlying managers with strong expertise in the global marketplace, and is implemented with equal allocations to the Pioneer Multi-Sector Fixed Income Fund and the Franklin Templeton Global Multi-Sector Plus Fund.
- In the one quarter since inception, this fund is up 2.3% which is in line with both the Barclays Multiverse Index and the peer group of core plus fixed income managers.

FMIvT High Quality Growth Equity Fund

- The High Quality Growth Equity Fund was up 3.6% in the second quarter, below that of the Russell 1000 Growth Index (up 5.1%) and the large cap growth manager peer group (up 4.6%), as adverse stock selection in the consumer staples, financials, energy and technology sectors held back returns during this period.
- This strategy has struggled to keep pace with the very strong equity market over the past several years, which has moderated the longer term return profile, although both the risk and return results over the past 10 years are in line with objectives.
- The high quality and growth oriented focus of this strategy positions this Fund to provide consistent performance over long periods of time, while also representing a strong complement to the large cap value-oriented strategy within the FMIvT lineup.

Florida Municipal Pension Trust Fund – DB 60/40 Allocation

Executive Summary

As of June 30, 2014

FMIvT Diversified Value Fund

- The Diversified Value Fund rose 4.0% in the second quarter, below that of the Russell 1000 Value Index (up 5.1%) and the large cap value manager group (up 4.8%), as modest exposure to the strongly-performing utilities and energy sectors and adverse financial stock selection paced returns during this period.
- Very strong outperformance for this strategy over the past three years has bolstered the longer-term performance characteristics, such that this fund is more than 200 basis points ahead of its benchmark on average annually over the past 5 years and is ranked in the top 8th percentile of similar value managers.
- This strategy focuses on economic principles and valuations as the key drivers of stock selection, not momentum or growth, representing a strong complement to the other large cap managers in the FMIvT lineup.

FMIvT Russell 1000 Enhanced Index

- The Russell 1000 Enhanced Index Fund advanced 4.4% in the second quarter, modestly behind both the Russell 1000 Index (up 5.1%) and the peer group of large cap core equity managers (up 4.9%) as an overweighting to the relatively weak financial and consumer sectors offset the beneficial impact of the above average exposure to the strong utility stocks.
- This enhanced large cap strategy is focused on producing a consistent (albeit modest) enhancement to the Russell 1000 Index, and has achieved this objective over all time frames, while also outperforming the median large cap core manager universe in the past 3-5 years.

FMIvT Diversified Small to Mid Cap Equity Fund

- The Diversified Small to Mid Cap Equity Fund rebounded from the decline in the first quarter to post a 3.0% rise in the second quarter. This performance was in line with the small smid cap manager peer group but below that of the Russell 2500 Index as sector allocations in utilities and energy offset strong industrial and technology stock selection.
- Despite recent performance challenges, this strategy has generated very strong results over the past 10 years, rising 12.9% compared with 9.2% for the benchmark and 10.7% for the peer group, thereby ranking in the top 11th percentile of the peer group with a lower risk profile and a compellingly positive risk-adjusted return profile.

FMIvT International Equity Portfolio

- The FMIvT International Equity Portfolio advanced 2.6% in the second quarter, falling short of the more rapid advance in the MSCI ACWI-Ex US Index (up 5.3%) and the peer group of international equity managers (up 4.0%), as modest exposure to the rebound in emerging markets provided a headwind to performance during this period.
- The Sub Advisor to the FMIvT International Equity Portfolio announced in March that there would be a change in the portfolio management responsibilities beginning April, 1, 2014; a meaningful departure from their historical approach. A review of alternative managers is being discussed.

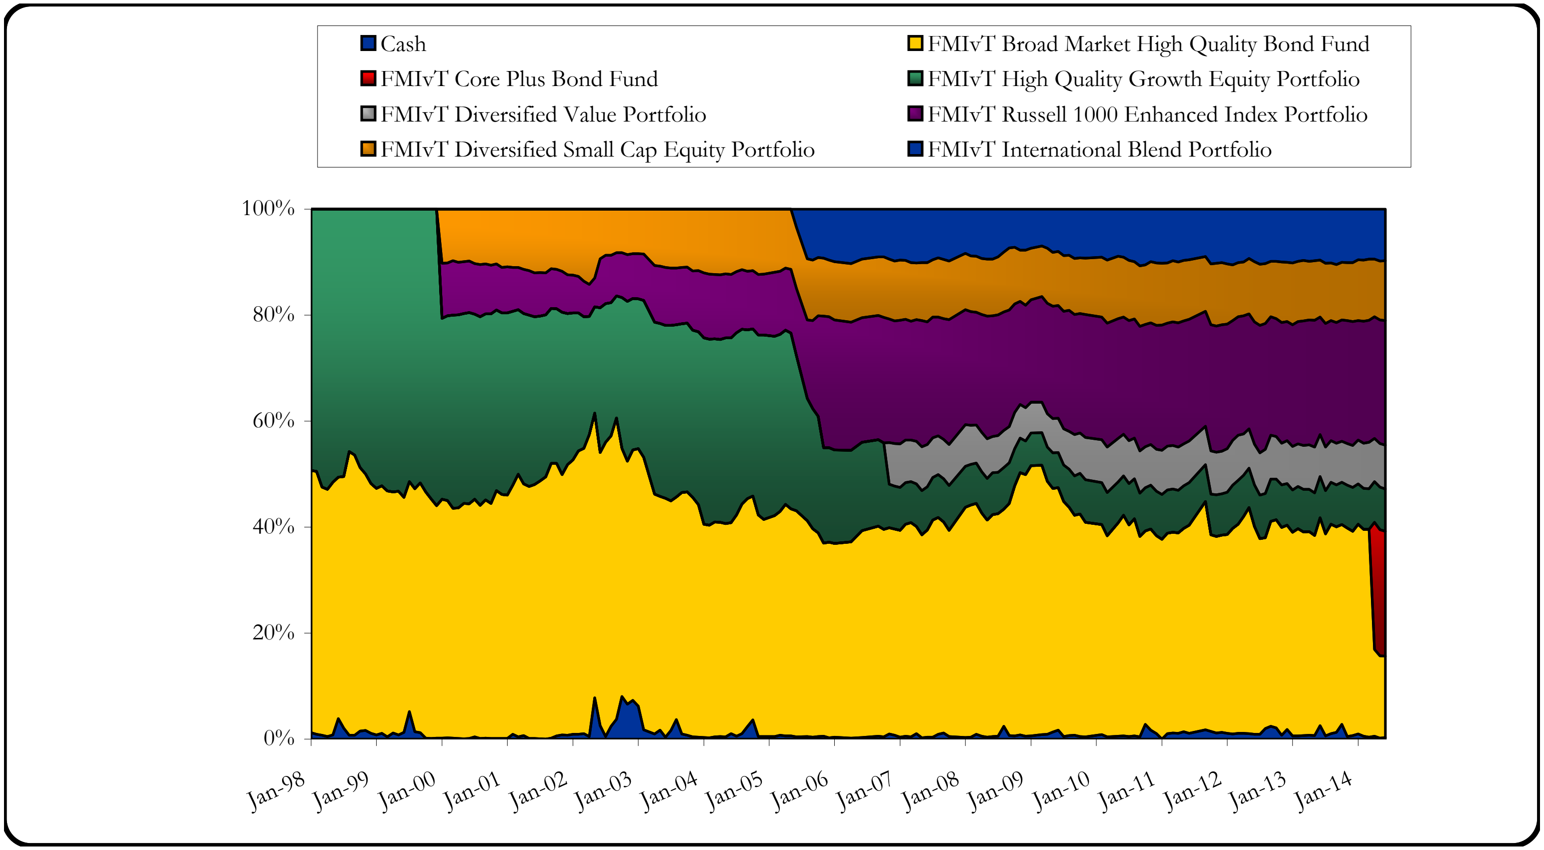
Prior to that, the Target Index represents 40% Barclays Capital Aggregate, 39% S&P 500, 11% Russell 2000, and 10% MSCI EAFE starting July 1, 2005 and 45% Barclays Capital Aggregate, 44% S&P 500, and 11% Russell 2000 for all time periods through June 30, 2005.

Note: Market values and Total Portfolio performance includes all fees and expenses. Beginning July 2008 and ending September 2010, the net of fee performance includes the impact of securities lending activity, which may increase or decrease the total expenses of the portfolio.

Florida Municipal Pension Trust Fund - DB 60/40 Allocation

Historical Manager Allocation



- ♦ **January 1998: Initial allocation to Broad Market HQ Bond and HQ Growth Equity only.**
- ♦ **January 2000: Added exposure to Small Cap markets and passive Large Cap.**
- ♦ **February 2004: Increased equity portfolio exposure through reduction in the Broad Market HQ Bond Fund.**
- ♦ **May 2005: Added International exposure; increased the Large Core allocation to reduce the Fund's growth bias.**
- ♦ **November 2006: Added Large Cap Value allocation to balance the style exposure.**
- ♦ **April 2014: Added Core Plus Fixed Income.**

Market Overview

For the Periods Ending June 30, 2014

US economic growth for the first quarter was revised downward to -2.9%, the worst reading since early 2009. The decline was primarily due to the weakest consumer spending in five years. Consumer spending, which accounts for about 70% of the economy, rose at 1% annualized rate down from 3.1% originally reported, largely reflecting weaker growth in healthcare spending. However, economic activity rebounded during the second quarter as improving labor markets, a pick-up in business output, and the continued housing recovery pointed to accelerating growth.

US labor market returning to 2007 pre-financial crisis levels... Job creation surged during the second quarter. The economy added 288,000 jobs in June, following gains of 224,000 in May, bringing the monthly average to 231,000 over the first half of 2014. Since 2010, the labor market has added 9 million jobs, fully recovering the 8.4 million lost over the two year recession. The jobless rate fell to 6.1% from 6.7% at the start of the year. Still, despite the improved fundamentals, labor participation has held steady, suggesting discouraged workers are not yet returning to the work force. Wage growth remained muted, climbing 2% over the past 12 months, in line with inflation.

Business demand increases to multi-year highs…An upswing in manufacturing output and strong orders underscored increased demand within the corporate sector. American factories increased production amid climbing orders for equipment and strong demand for automobiles. Auto sales reached an annualized rate of 16.9 million in June which is the strongest since July 2006. Moreover, the bounce back was widespread, as service providers from construction firms to retailers expanded in June as a measure of orders rose to its highest since January 2011.

US housing market on solid footing…Sales of new and previously owned homes rose as historically low borrowing costs, a modest rise in prices, and an accelerating job market together have made home ownership more appealing for Americans. However, there remained pockets of weakness after construction on new homes unexpectedly declined in June to a nine-month low blamed on a shortage of buildable lots resulting from the harsh winter months earlier in the year.

The Federal Reserve (Fed) maintained cautious optimism in its assessment of the economy. The Fed acknowledged improvements in the labor market but cautioned that as the economy continues to improve, it could draw back people who dropped out of the work force, potentially slowing the rate of decline in the unemployment rate. Despite an uptick in inflation to 2.1% in June over the past 12 months, the Fed highlighted the inherent volatility in price changes and noted there had yet to be sustained wage pressures. The Fed continued to pare its monthly bond purchases by $10 billion to $35 billion, on track to wind down its purchases by the end of the year and reaffirmed it would maintain short-term rates near zero.

Market Overview

For the Periods Ending June 30, 2014

Global stocks rebounded from modest first quarter performance, after investors gained confidence central bankers would maintain accommodative monetary policy to support economic growth. The benchmark MSCI All Country World index rose 5.2%, adding to year-to-date gains of 6.5%. For the US, signs of a sharp rebound in second quarter economic activity helped stocks score multiple new highs, as the S&P 500 index reached an all time high of 1,962.87 on June 20 before closing the quarter at 1960.23, a gain of 5.2% and the sixth consecutive quarterly rise. All ten S&P sectors rose, led by double-digit gains in the energy sector. The Russell 2000 index of small companies rose sharply in June led by energy and utility stocks. Japanese stocks soared after the government revised first quarter growth sharply higher to an annualized 6.7% from an initial reading of 5.9%. A new round of stimulus measures by the European Central Bank (ECB) fueled a rally in European stocks as the MSCI Europe index climbed 3.7% (USD) capping its eighth straight quarterly gain. Subsiding political uncertainties coupled with reports that China's economy showed expansion spurred a rally in emerging market equities as the MSCI Emerging Markets index jumped 6.7% (USD), the biggest quarterly gain since 2012.

China's second quarter growth increased slightly to 7.5% year on year, compared with 7.4% in the first quarter after the government expanded credit and boosted spending. Indian equities traded to all-time highs amid optimism the newly elected government would implement market oriented reforms to support growth.

Global Fixed Income... Aggressive stimulus measures by the ECB and continued outright government bond purchases by the Fed and Bank of Japan (BOJ) helped send global bond prices higher during the second quarter. The Bank of America Merrill Lynch Global Broad Market index climbed 2.4% as the average yield declined 20 basis points (bps) to 1.72%, 4 bps shy of the all-time record low. The US Treasury curve flattened during the quarter as short-term rates rose after investors began pricing in the Fed's first rate hike, while long-dated Treasuries were supported by global investors seeking higher sovereign yields. The yield on 10-year Treasury bonds declined 19 bps to end the quarter at 2.53%. Overall, the Bank of America Merrill Lynch US Treasury index posted gains of 1.6%, while the Barclays US Aggregate index rose 2.0%. The ECB announced new stimulus measures on June 5 which included cutting its main refinancing rate to a record 0.15%, and moving the deposit rate for banks below zero to encourage banks to lend rather than hold cash. German 10-year yields fell 32 bps over the quarter to 1.25%, while Spanish 10-year yields dropped 57 bps to 2.66% after briefly slipping below US 10-year yields on June 9. US dollar denominated emerging market bonds rallied for the fourth straight quarter as the JPMorgan EMBI Global Diversified index rose 4.8%, sending yields down 45 bps to 5.11%, as the premium investors demanded to own emerging market bonds over US Treasuries fell 28 bps to 269 bps.

FMIvT International Equity Portfolio

For the Period Ending June 30, 2014

Portfolio Description

- ♦ Strategy: International Equity Portfolio
- ♦ Manager: Thornburg (as of April 2011)
- ♦ Vehicle: Commingled Fund
- ♦ Manager Fee: 85 bps; fees are based on the net asset value of the Portfolio
- ♦ Admin Fee: 14.5 bps; fees are based on the net asset value of the Portfolio
- ♦ Total Expenses: Approximately 105 bps
- ♦ Inception Date: June 1, 2005 (Manager change April 2011)
- ♦ Benchmark: MSCI ACWI Ex-US

Portfolio Information

- Minimum initial investment: $50,000
- Minimum subsequent investments: $5,000
- Minimum redemption: $5,000
- The Portfolio is open once a month, on the first business day following the Portfolio Valuation date, to accept Member contributions or redemptions.
- The Portfolio is valued on the last business day of the month.
- The Administrator must have advance written notification of Member contributions or redemptions.

Portfolio Objectives and Constraints

- ♦ Invests in developed markets outside the US. Maintains approximately equal weightings to both growth and value securities through a systematic rebalancing process.
- ♦ Outperform the MSCI ACWI Ex-US Index over a complete market cycle (usually 3 to 5 years).
- ♦ Rank above median in a relevant peer group universe.
- ♦ Stock values fluctuate in response to the activities of individual companies, the general market, and economic conditions. Investments in foreign securities generally pose greater risk than domestic securities.
