ARTICLE 1

DEFINITIONS

As used herein, unless otherwise defined or required by the context, the following words and phrases shall have the meaning indicated:

1.01 “Accumulated Contributions”:

shall mean a Participant's own contributions without interest. For those Participant's who purchase Credited Service with interest or at no cost to the Plan, only that portion of any payment representing the amount attributable to the Participant's contributions based on the applicable Participant contribution rate shall be included in Accumulated Contributions.

1.02 “Accrued Benefit”:

shall mean a fraction of the benefit to which a Participant would be entitled at their Normal Retirement Date. The numerator of the fraction is the years of participation completed to date and the denominator is the years of participation in the Plan that would have been earned if the Participant continued employment until their Normal Retirement Date.

1.03 “Actuary”:

shall mean an actuary that is a member of the Society of Actuaries or the American Academy of Actuaries and who is enrolled under subtitle C of Title III of the Employee Retirement Income Security Act of 1974.

1.04 “Actuarial Equivalent”:

Actuarial Equivalent is defined in the attachment marked Exhibit B.

1.05 “Adoption Agreement”:

shall mean the document outlining the specific benefits of the Plan, as executed by the Employer and attached to and made part of the Plan.

1.06 “Average Final Compensation”:

shall mean one-twelfth (1/12) of the average annual compensation of the five (5) best years of the last ten (10) years of Credited Service prior to retirement, termination or death, or the career average, whichever is greater, unless otherwise specified in the Adoption Agreement. A year shall be defined as the twelve (12) consecutive months immediately prior to death, disability or retirement. In the case of a Volunteer Firefighter, Average Final Compensation shall mean the average salary of the five (5) best years of the ten (10) best contributing years prior to change in status to a permanent full-time Firefighter or retirement as a Volunteer Firefighter or the career average of a Volunteer Firefighter, whichever is greater.

1.07 “Beneficiary”:

shall mean the person or persons entitled to receive benefits hereunder at the death of a Participant who has or have been designated in writing by the Participant and filed with the Board. If no such designation is in effect, or if no person so designated is living, at the time of death of the Participant, the beneficiary shall be the estate of the Participant.

1.08 “Board”:

shall mean the Board of Trustees, which shall administer and manage the Plan herein provided and serve as Trustees of the Fund.

1.09 “Code”:

shall mean the Internal Revenue Code of 1986, as amended from time to time.

1.10 “Credited Service”:

shall mean the total number of years and fractional parts of years as a Participant during which the Participant made required contributions to the Plan, omitting intervening years or fractional parts of years when such Participant is not employed by the Employer. Credited Service may be given for years of employment as a Police Officer, Firefighter

or Public Safety Officer, prior to plan inception at the discretion of the Employer and as stated in the Adoption Agreement.

A Participant may voluntarily leave his Participant contributions in the Fund for a period of five (5) years after leaving the employ of the Employer pending the possibility of being rehired in a position eligible for participation in this Plan, without losing credit for the time that he was a Participant in the Plan. If a vested Participant does not become reemployed within five (5) years, then the Accumulated Contributions will be returned to the Participant without interest, unless otherwise specified in the Adoption Agreement, upon receipt of written request of the Participant. If a Participant who is not vested is not reemployed with the Employer within five (5) years, his Accumulated Contributions shall be returned without interest. Upon return of a Participant's Accumulated Contribution, all rights and benefits under the Plan are forfeited and terminated. Upon any reemployment in a position eligible for participation in this Plan, a Participant shall not receive credit for the years and fractional parts of years for which he has withdrawn his Accumulated Contributions from the Plan unless the Participant repays into the Fund the contributions he has withdrawn, with interest, as determined by the Board, within ninety (90) days after reemployment.

A Participant shall receive Credited Service for all purposes, including vesting, for the years or fractional parts of years that he performs "Qualified Military Service" including voluntary or involuntary service in the armed forces of the United States as defined in the Uniformed Services Employment and Reemployment Rights Act (USERRA) (P.L. 103-353), after separation from employment with the Employer, to perform training or service, provided that:

- (A)** The Participant must return to his employment with the Employer within one (1) year following the date of military discharge or his release from active service.
- (B)** The Participant is entitled to reemployment under the provisions of USERRA,

(C) The maximum credit for military service pursuant to this paragraph shall be five (5) years.

(D) This section is intended to satisfy the minimum requirements of USERRA, as may be amended from time to time. To the extent that this section does not meet the minimum requirements of USERRA, the provisions of USERRA shall govern.

If a participant dies on or after January 1, 2007 while performing Qualified Military Service as defined by USERRA, the participant's beneficiaries shall be entitled to any benefits the participant would have been entitled to had he or she resumed employment and then died while employed.

Beginning January 1, 2009, to the extent required by section 414(u)(12) of the Code, an individual receiving differential wage payments, as defined under section 3401(h)(2) of the Code, from an employer shall be treated as employed by that employer, and the differential wage payment shall be treated as compensation for purposes of applying the limits on annual additions under section 415(c) of the Code. This provision shall be applied to all similarly situated individuals in a reasonably equivalent manner.

1.11 “Deferred Retirement Option Plan” or “DROP”:

shall mean a local law plan retirement option in which a Participant may elect to participate. A Participant may retire for all purposes of the plan and defer receipt of retirement benefits into a DROP account while continuing employment with his employer. However, a Participant who enters the DROP and who is otherwise eligible to participate shall not thereby be precluded from participating or continuing to participate in a supplemental plan in existence on, or created after, the date of adoption of a DROP by the Employer pursuant to Section M, “DROP,” of the Adoption Agreement.

1.16 “Firefighter”:

shall mean any person employed solely by a constituted fire department or public safety department of any municipality or special fire control district who is certified as a Firefighter as a condition of employment in accordance with the provisions of Section 633.35, Fl. Stat., and whose duty is to extinguish fires, to protect life, and to protect property. The term includes all certified, supervisory, and command personnel whose duties include, in whole or in part, the supervision, training, guidance, and management responsibilities of full-time firefighters, part-time firefighters, or auxiliary firefighters but does not include part-time firefighters or auxiliary firefighters.

1.17 “Fund”:

shall mean the Trust Fund established herein as part of the Plan.

1.18 “Limitation Year”:

shall mean the calendar year, or the 12-consecutive month period elected by an Employer in the Adoption Agreement and approved by the FMPTF Master Trustee or its designee. All qualified plans maintained by the Employer must use the same Limitation Year. If the Limitation Year is amended to a different 12-consecutive month period, the

new Limitation Year must begin on a date within the Limitation Year in which the amendment is made.

Stat., who is vested with authority to bear arms and make arrests, and whose primary responsibility is the prevention and detection of crime or the enforcement of the penal, criminal, traffic, or highway laws of the State. This

definition includes all certified supervisory and command personnel whose duties include, in whole or in part, the supervision, training, guidance, and management responsibilities of full-time law enforcement officers, part-time law enforcement officers, or auxiliary law enforcement officers, but does not include part-time law enforcement officers or auxiliary law enforcement officers as the same are defined in s. 943.10(6) and (8), Fl. Stat., respectively. A Police Officer classification shall also include a public safety officer who is responsible for performing both police and fire services.

1.24 “Public Safety Officer”:

shall mean an actively employed person who is responsible for performing both firefighter and police officer services. A Public Safety Officer shall be considered a “police officer” for the purposes of this Plan.

1.25 “Salary/Compensation”:

Notwithstanding any provision of this Plan or Adoption Agreement, “Salary/Compensation” for all Participants participating under the Plan shall be limited as follows:

For noncollectively bargained service earned on or after July 1, 2011, or for service earned under collective bargaining agreements entered into on or after July 1, 2011, when calculating a Participant’s retirement benefits, the Plan may include up to 300 hours per year of overtime compensation as noted in the Adoption Agreement, but may not include any payments for accrued unused sick leave or annual leave. For those Participants whose terms and conditions of employment are collectively bargained, this provision is effective for the first agreement entered into on or after July 1, 2011.

For Firefighters, “compensation” or “salary” means, for noncollectively bargained service earned before July 1, 2011, or for service earned under collective bargaining agreements in place before July 1, 2011, the fixed monthly remuneration paid a Firefighter; where, as in the case of a Volunteer Firefighter, remuneration is based on actual services rendered, the term means the total cash remuneration received yearly for such services,

prorated on a monthly basis. For noncollectively bargained service earned on or after July 1, 2011, or for service earned under collective bargaining agreements entered into on or after July 1, 2011, the term has the same meaning except that when calculating retirement benefits, up to 300 hours per year in overtime compensation may be included as noted in the Adoption Agreement, but payments for accrued unused sick or annual leave may not be included.

For Police Officers, “compensation” or “salary” means, for noncollectively bargained service earned before July 1, 2011, or for service earned under collective bargaining agreements in place before July 1, 2011, the total cash remuneration paid to a Police Officer for services rendered, including overtime payments which may be limited to not less than 300 hours per calendar year, but not including any payments for extra duty or a special detail work performed on behalf of a second party employer. For noncollectively bargained service earned on or after July 1, 2011, or for service earned under collective bargaining agreements entered into on or after July 1, 2011, the term has the same meaning except that when calculating retirement benefits, up to 300 hours per year in overtime compensation may be included as noted in the Adoption Agreement, but payments for accrued unused sick or annual leave may not be included.

For a firefighter or police officer supplemental plan operating under either section 175.351(4) or 185.35(4), Florida Statutes, the definition of compensation or salary may be as provided under the referenced sections of law.

Compensation in excess of the limitations set forth in Section 401(a)(17) of the Code as of the first day of the calendar year shall be disregarded for any purpose, including employee contributions or any benefit calculations. The annual compensation of each member taken into account in determining benefits or employee contributions for any calendar year beginning on or after January 1, 2002, may not exceed \$200,000, as adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the Code.

See Section D of the Adoption Agreement for further details.

1.26 “Spouse”:

shall mean the Participant’s spouse under applicable law at the time benefits become payable.

1. 27 “Total and Permanent Disability”:

shall mean a physical or mental condition of a Participant resulting from bodily injury, disease, or mental disorder which renders him incapable of employment as a Firefighter, Police Officer or Public Safety Officer, and which condition constitutes total disability as determined by the Board.

1.28 “Trust Fund or Trust”:

shall mean the Trust Fund established under this Plan to hold Plan assets and to which contributions are to be paid and benefits held. Nothing herein shall preclude the establishment of more than one trust fund as may be required by law or adopted by the Employer.

1.29 “Trustee”:

shall mean the person or persons named as and making up the Board of Trustees or Board, who shall administer and manage the Plan.

1.30 “Valuation Date”:

shall mean the first day of the Plan Year.

1.31 “Volunteer Firefighter”:

shall mean any person whose name is carried on the active membership roll of a constituted volunteer fire department or a combination of a paid and volunteer fire department of any municipality or special fire control district and whose duty is to extinguish fires, protect life, and to protect property. Compensation for services rendered by a Volunteer Firefighter shall not disqualify him as a volunteer. A person shall not be

disqualified as a Volunteer Firefighter solely because he has other gainful employment. Any person who volunteers assistance at a fire, but is not an active member of the department described herein is not a Volunteer Firefighter within the meaning of this paragraph.

ARTICLE 2

PARTICIPATION

2.01 Conditions of Eligibility

A Participant shall become eligible to participate in this Plan as specified in Section C of the Adoption Agreement.

As a condition of eligibility, the Employee participants shall be required to complete a medical examination as prescribed by the Board, and provide complete and accurate information concerning their health status as requested by the Board. Any material misstatements or omissions of required health or medical information by an applicant or Participant shall be grounds for denial of benefits. Based upon medical evidence of any pre-existing adverse health condition, resulting from the prescribed examination or other medical records or history, the Board may determine ineligibility for disability benefits hereunder, as related to such pre-existing condition. A Participant may be declared ineligible for disability benefits only at the time of the initial examination provided in this section, or at a later date if the Board established that a condition existed at the time of the Participant's employment or date of participation, and the condition was known to the employee. A determination of pre-existing condition shall be recorded on the Participant's record of membership, a copy of which shall be provided to the Participant, and shall be reflected in the minutes of the Board meeting at which such determination was made by the Board. The procedures followed and the determination of the Board as to a pre-existing condition shall be considered on a uniform, non-discriminatory basis.

2.02 Participation

Each Participant shall complete a form prescribed by the Board providing the following information:

- (A) enrollment in the Plan
- (B) designation of a beneficiary or beneficiaries,

- (C) a certified statement as to prior medical history, and a waiver to release and access medical records.

2.03 Change in Designation of Beneficiary

A Participant may from time to time change his designated beneficiary by written notice to the Board upon forms provided by the Board. Upon such change, the rights of all previously designated beneficiaries to receive any benefits under the Plan shall cease. A change of beneficiary shall not require consent of the beneficiary. Notwithstanding the provisions of this paragraph, a police officer retiree or firefighter retiree may change his or her designation of beneficiary up to two times without the approval of the Board or the current beneficiary. The retiree is not required to provide proof of the good health of the beneficiary being removed, and the beneficiary being removed need not be living.

ARTICLE 3

BOARD OF TRUSTEES

3.01 Board of Trustees

(A) The sole and exclusive administration of and responsibility for the proper operation of the Plan is hereby vested in a Board of Trustees. For plans participating in Chapter 175 or 185, Fl. Stat., these trustees shall be selected according to Section 175.061 (1)(b), Fl. Stat., and Section 185.05, (1)(b), Fl. Stat. For plans not participating in Chapter 175 or 185, Fl. Stat., these trustees shall be selected according to municipal ordinance, or resolution adopted by the governing body of the special fire control district. Each Board of Trustees shall be a legal entity with, in addition to other powers and responsibilities contained herein, the power to bring and defend lawsuits of every kind, nature, and description. Accurate and detailed accounts of all Board meetings must be kept. All accounts, books and records relating thereto shall be open to inspection and audit in accordance with general law. The Board shall issue such reports as are requested and make available to the same for inspection any and all records and accounts which are deemed appropriate in order to comply with governmental regulations issued thereunder.

(B) The Board members shall, by a majority vote, elect a Chairman and a Secretary. The Secretary of the Board shall keep a complete minute book of the actions, proceeding, or hearings of the Board. The Board members shall not receive any compensation as such, but may receive expenses and per diem as provided by law.

(C) Each Board member shall serve as trustee for a period of 2 years, unless he or she sooner leaves the employment of the Employer, whereupon a successor shall be chosen in the same manner as an original appointment. However, the terms of office of the appointed and elected

members may be amended by municipal ordinance, or resolution adopted by the governing body of the special fire control district to extend the terms from 2 years to 4 years. The length of the terms of office shall be the same for all board members.

(D) Each Board member shall be entitled to one vote on the Board. A majority of the Board shall be necessary for any decision of the Board. A Board member shall have the right to abstain from voting as the result of a conflict of interest provided that Board member states in writing the nature of the conflict and complies with the provisions of Section 112.3143, Fl. Stat.

(E) The Board of Trustees shall engage such actuarial, accounting, legal, and other services as shall be required to transact the business of the Plan. The compensation of all persons engaged by the Board and all other expenses of the Board necessary for the operation of the Plan shall be paid from the Fund at such rates and in such amounts as the Board of Trustees shall approve.

(F) The duties and responsibilities of the Board of Trustees shall include, but not necessarily be limited to, the following:

- (1)** To construe the provisions of the Plan and determine all questions arising thereunder.
- (2)** To determine all questions relating to eligibility and participation.

4.01 Establishment and Operation of Fund

(A) As part of the Plan, there is hereby established the Fund, into which shall be deposited all of the contributions and assets whatsoever attributable to the Plan, including any assets of any prior municipal trust fund(s).

(B) The actual custody and supervision of the Fund (and assets thereof) shall be vested in the Board. Payment of benefits and disbursements from the Fund shall be made by the disbursing agent but only upon written authorization from the Board or its designee.

(C) All funds of the Plan may be deposited by the Board with the Employer, acting in a ministerial capacity only, who shall be liable in the same manner and to the same extent as he is liable for the safekeeping of funds for the Employer. However, any funds so deposited with the Employer shall be kept in a separate fund by the Employer or clearly identified as such funds of the Plan. In lieu thereof, the Board shall deposit the funds in a qualified public depository as defined in Section 280.02, Fl. Stat., which depository with regard to such funds shall conform to and be bound by all of the provisions of Chapter 280, Fl. Stat. In order to fulfill its investment responsibilities as set forth herein, the Board may retain the services of a custodian bank, an investment adviser registered under the Investment Advisors Act of 1940, or otherwise exempt from such required registration, an insurance company, or a combination of these, for the purpose of investment decisions and management. Such investment manager shall have discretion, subject to any guidelines as prescribed by the Board, in the investment of all Fund assets.

(D) All funds of the Plan may be commingled without limitation in governmental investment trusts, no-load investment funds or no-load mutual

funds, and all such trusts or funds must comply with the Investment Policy as attached as Exhibit A. Accurate records are to be maintained at all times reflecting the financial composition of the Fund, including accurate current accounts and entries as regards the following:

- (1) Current amounts of Accumulated Contributions of Participants on both an individual and aggregate account basis, and
- (2) receipts and disbursements, and
- (3) benefit payments, and
- (4) current amounts clearly reflecting all monies, funds and assets whatsoever attributable to contributions and deposits from the Employer, and
- (5) all interest, dividends and gains (or losses), and
- (6) such other entries as may be properly required so as to reflect a clear and complete financial report of the Fund.

(E) An independent audit shall be performed annually by a certified public accountant for the most recent fiscal year of the Employer showing a listing of assets and a statement of all income and disbursements during the year. Such income and disbursements must be reconciled with the assets at the beginning and end of the year. Such report shall reflect a complete evaluation of assets on a cost and market basis, as well as other items normally included in a certified audit.

(F) The Board of Trustees shall have the following investment powers and authority:

- (1) The Board of Trustees shall be vested with full legal title to said Fund, subject, however, and in any event to the authority and power of the governing body of the Employer to amend or terminate this Plan, provided that no amendment or termination shall ever result in the use

of any assets of the Fund except for the payment of regular expenses and benefits under this Plan, and except as otherwise provided in this Plan. All contributions deposited into the Fund, and the income thereof, without distinction between principal and income, shall be held and administered by the Board, or its agent, in the Fund, and the Board shall not be required to segregate or invest separately any portion of the Fund.

(2) All monies paid into or held in the Fund shall be invested and reinvested by the Board. The Fund shall be invested in accordance with an established investment policy adopted by the Board. The adopted investment policy will be made part of this document and shall be attached as **Exhibit A**.

(3) The Board may cause any investment in securities held by it to be registered in or transferred into its name as Trustee or into the name of such nominee as it may direct, or it may retain them unregistered and in a form permitting transferability, but the books and records shall at all times show that all investments are part of the Trust Fund.

(4) The Board is empowered, but is not required, to vote upon any stocks, bonds, or securities of any corporation, association, or trust and to give general or specific proxies or powers of attorney with or without power of substitution to participate in mergers, reorganizations, recapitalization, consolidations and similar transactions with respect to such securities; to deposit such stock or other securities in any voting trust or any protective or like committee with the Trustee or with depositories designated thereby; to amortize or fail to amortize any part or all of the premium or discount resulting from the acquisition or disposition of assets; and generally to exercise any of the powers of an owner with respect to stocks, bonds, or other investments comprising the Fund which it may deem to be in the best interest of the Fund to exercise.

(5) Any overpayments or underpayments from the Fund to a Participant or beneficiary caused by errors of computation shall be adjusted with interest at a rate per annum as utilized in the prior years' actuarial valuation. Overpayments shall be charged against payments next succeeding the correction. Underpayments shall be made up from the Trust Fund.

(6) In any application to or proceeding or action in the courts, the Board and Employer shall be a necessary party, and no Participant or other person having an interest in the Fund shall be entitled to any notice or service of process. Any judgment entered in such a proceeding or action shall be conclusive upon all persons.

(7) Any powers and functions of the Board may be performed or carried out by the Board through duly authorized agents, provided that the Board at all times maintains continuous supervision over the acts of any such agent; provided further, that legal title to the Fund always remain with the Board.

The divestiture of any such security must be completed as specified in Chapter 175 or 185, Fl. Stat. The Board and its named officers or investment advisors may not be deemed to have breached their fiduciary duty in any action taken to dispose of any such security, and the Board shall have satisfactorily discharged the fiduciary duties of loyalty, prudence, and sole and exclusive benefit to the participants of the pension fund and their beneficiaries if the actions it takes are consistent with the duties imposed by s. 215.473, and the manner of the disposition, if any, is reasonable as to the means chosen.

For the purposes of effecting compliance with that section, the pension fund shall designate terror-free plans that allocate their funds among securities not subject to divestiture. No person may bring any civil, criminal, or administrative action against the Board of trustees or any employee, officer, director, or advisor of such pension fund based upon the divestiture of any security pursuant to this paragraph.

(C) Any vested Participant of the Plan who is no longer eligible to participate in this Plan due to a change of employment, but who remains employed by the Employer in a class not eligible to participate under this Plan, shall have his Accrued Benefit to the date of such termination under this Plan preserved, provided he does not elect to withdraw his Accumulated Contributions from this Plan. Such Accrued Benefit shall be payable at his otherwise Early or Normal Retirement Date hereunder in accordance with the provisions of this Plan.

(D) If a Participant who terminates employment prior to his Early Retirement Date or his Normal Retirement Date and elects to withdraw Accumulated Contributions, is subsequently reemployed and again becomes a Participant in this Plan, his Credited

Service for purposes of vesting and benefit accruals shall not include any periods of employment prior to his reemployment date unless he repays to the Fund his Accumulated Contributions previously withdrawn with interest, as determined by the Board, within ninety (90) days after reemployment. If a Participant repays the foregoing amount to the Fund within the prescribed time period, the interest of the Participant in his Accrued Benefit previously forfeited shall be restored in full and the Participant's Credited Service shall be based on all periods of employment.

ARTICLE 10

OPTIONAL FORMS OF BENEFITS

(A) In lieu of the normal form of benefit as specified herein, a Participant's Early or Normal Retirement or Disability Benefit may be paid in an optional form as selected by the Participant.

Subject to the approval of the Board or its designee, the Participant may elect to receive the Actuarial Equivalent of the benefit otherwise payable to the Participant in accordance with one of the following options:

1. Monthly income payments for the life of the Participant.
2. Monthly income payment for the life of the Participant and after his death, a joint pensioner benefit payable for the life of the joint pensioner equal to, 100%, 75%, 66 2/3%, or 50% of the amount payable to the Participant.
3. Such other amount and form of retirement benefit payment that, in the opinion of the Board, will meet the circumstances of the Participant and the Trust.

(B) The Participant, upon electing any option pursuant to this Article, will designate the joint pensioner or beneficiary (or beneficiaries) to receive the benefit, if any, payable under the Plan in the event of Participant's death, and will have the power to change such designation from time to time. Such designation will name a joint pensioner or one or more primary beneficiaries where applicable. A Participant may change his Beneficiary at any time. If a Participant has elected an option with a joint pensioner and the Participant's retirement benefits have commenced, the Participant may thereafter change his joint pensioner twice without the approval of the Board or the current joint pensioner. A Participant is not required to provide proof of the good health of the joint pensioner being removed, and the joint pensioner being removed need not be living.

(C) Upon change of a Participant's joint pensioner in accordance with this Article, the amount of the retirement income payable to the Participant shall be actuarially re-

determined to ensure that the benefit paid is the Actuarial Equivalent of the present value of the Participant's then-current benefit at the time of change, and there is no impact to the Plan. Any such Participant shall pay the actuarial recalculation expenses. Each request for a change will be made in writing on a form prepared by the Board and on completion will be filed with the Board. In the event that no designated Beneficiary survives the Participant, such benefits as are payable in the event of the death of the Participant subsequent to his retirement shall be paid as provided in Section 11, Beneficiaries.

(D) Benefit payments shall be made under the option elected in accordance with the provisions of this Article and shall be subject to the following limitations:

1. If a Participant dies prior to his Normal Retirement Date or Early Retirement Date, the beneficiary will receive a benefit paid under the normal form of benefit in accordance with Article 7, Pre-Retirement Death.
2. If both the retired Participant and the beneficiary (or beneficiaries) designated by Participant die before full payment has been effected under any option providing for payments for a period certain and life thereafter, the value of the remaining payments shall be paid in such other amount and form of retirement benefit payment that, in the opinion of the Board, will meet the circumstances of the retiree and the Trust in accordance Article 11.
3. If the designated Beneficiary (or Beneficiaries) or joint pensioner dies before the Participant's retirement under the Plan, the option elected will be canceled automatically and a retirement income of the normal form and amount will be payable to the Participant upon his retirement as if the election had not been made, unless a new election is made in accordance with provisions of this Article or a new Beneficiary is designated by the Participant prior to his retirement.
4. If a Participant continues employment beyond his Normal Retirement Date pursuant to the provisions of the Normal Retirement Date provided in the Adoption Agreement, and dies prior to his actual retirement and while an option made pursuant to the provisions of the Adoption Agreement is in effect,

monthly retirement income payments will be made, or a retirement benefit will be paid, under the option to a Beneficiary (or Beneficiaries) designated by the Participant in the amount or amounts computed as if the Participant had retired under the option on the date on which his death occurred.

(E) Unless otherwise allowed by law, a Participant may not change his benefit payment option after the date of cashing or depositing his first benefit check.

(F) Distribution of a participant's benefit under this article must commence no later than April 1 of the calendar year following the later of the calendar year during which the participant attains age seventy and one-half (70 ½) or the calendar year in which the participant terminates employment with the Employer.

(G) Notwithstanding anything herein to the contrary, the Board in its discretion, may elect to make a lump sum payment to a Participant or a Participant's Beneficiary in the event that the total commuted value of the monthly income payments to be paid do not exceed one thousand dollars (\$1,000). Any such payment made to any person pursuant to the power and discretion conferred upon the Board by the preceding sentence shall operate as a complete discharge of all obligations under the Plan with regard to such Participant and shall not be subject to review by anyone, but shall be final, binding and conclusive on all persons.

ARTICLE 11

BENEFICIARIES

(A) Each Participant may, on a form provided for that purpose, signed and filed with the Board, designate a beneficiary (or beneficiaries) to receive the benefit, if any, which may be payable in the event of his death and each designation may be revoked by such Participant by signing and filing with the Board a new designation-of-beneficiary form. The consent of a Participant's beneficiary to any change of beneficiary shall not be required.

(B) If a deceased Participant fails to name a beneficiary in the manner prescribed in Section A, or if the beneficiary (or beneficiaries) named by a deceased Participant predeceases the Participant, the death benefit, if any, which may be payable under the Plan with respect to such deceased Participant shall be paid by the Board to the estate of the Participant, and the Board, in its discretion, may direct that the commuted value of the remaining value of the remaining monthly income benefits be paid in a lump sum.

Any payment made to any person pursuant to this Section shall operate as a complete discharge of all obligations under the Plan with regard to the deceased Participant and any other persons with rights under the Plan and shall not be subject to review by anyone but shall be final, binding, and conclusive on all persons ever interested hereunder.

Before January 1, 1995, a plan member may not receive an annual benefit that exceeds the limits specified in Code Section 415(b), subject to the applicable adjustments in that section. On and after January 1, 1995, a plan member may not receive an annual benefit that exceeds the dollar amount specified in Code Section 415(b)(1)(A) (\$160,000), subject to the applicable adjustments in Code Section 415(b) and subject to any additional limits that may be specified in this plan.

For purposes of Code Section 415(b), the term “annual benefit” means a benefit payable annually in the form of a straight life annuity without regard to the benefit attributable to after-tax employee contributions (except pursuant to Code section 415(n)) and to rollover contributions (as defined in Code section 415(b)(2)(A)), and with the benefit attributable determined in accordance with Treasury Regulations located in 26 C.F.R. 1.415(b)-1.

16.02 Adjustments to Basic Limitation for Form of Benefit.

If the form of benefit is other than the annual benefit defined in section 16.01, the benefit shall be adjusted so that it is the equivalent of the annual benefit using factors prescribed in Treasury Regulations. If the form of benefit without regard to any automatic benefit increase feature is not a straight life annuity or a qualified joint and survivor annuity then the preceding sentence is applied by either reducing the Code Section 415(b) limit applicable at the annuity starting date or by adjusting the form of benefit to an actuarially equivalent amount determined using the assumptions specified in 26 CFR 1.415(b)-1 that takes into account the additional benefits under the form of benefit as follows:

- (A) Benefit Forms Not Subject to § 417(e)(3): The straight life annuity that is actuarially equivalent to the member’s form of benefit shall be determined under this section 16.02(A) if the form of a member’s benefit is either a non-

decreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the member (or in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse), or an annuity that decreases during the life of the participant merely because of (a) the death of the survivor annuitant (but only if the reduction is not below 50% of the benefit payable before the death of the survivor annuitant), or (b) the cessation or reduction of Social Security supplements or qualified disability payments (as defined in Code Section 401(a)(11)). For a benefit paid in a form described in this Section 16.02(A), the actuarially equivalent straight life annuity is equal to the greater of:

- (1) The annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the member's form of benefit, or
 - (2) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality tables described in Code Section 417(e)(3)(B) (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Code Section 417(e)(3)(B)); or
- (B) Benefit Forms Subject to § 417(e)(3): If a form of member's benefit is other than a benefit form described in section 16.02(A), the actuarially equivalent straight life annuity benefit that is the greatest of:
- (1) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table, or tabular factor, specified in the plan for actuarial experience;
 - (2) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable computed using a five percent

interest assumption for the applicable statutory interest assumption and (i) for years prior to January 1, 2009 the applicable mortality tables for the distribution under 26 CFR 1.417(e)-1(d)(2) (Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62) and (ii) for years after December 31, 2008 the applicable mortality tables described in Code Section 417(e)(3)(B) (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Code Section 417(e)(3)(B)); or

- (3) The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable computed using the applicable interest rate for the distribution under 26 CFR 1.417(e)-1(d)(3) the 30-year Treasury rate prior to January 1, 2007 using the rate in effect for the month prior to retirement and on and after January 1, 2007 using the rate in effect for the first day of the plan year with a one-year stabilization period and (i) for years prior to January 1, 2009 the applicable mortality tables for the distribution under 26 CFR 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62) and (ii) for years after December 31, 2008 the applicable mortality tables described in Code Section 417(e)(3)(B) (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing Code Section 417(e)(3)(B)), divided by 1.05.

(C) The actuary may adjust the 415(b) limit at that annuity starting date in accordance with paragraphs (A) and (B) above.

(D) Benefits Not Taken into Account. For purposes of this Section, the following benefits shall not be taken into account in applying these limits:

- (1) Any ancillary benefit which is not directly related to retirement income benefits;

- (2) Survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the participant's benefit were paid in another form.
- (3) Any other benefit not required under §415(b)(2) of the Code and Regulations thereunder to be taken into account for purposes of the limitation of Code Section 415(b)(1);

(E) COLA Effect. Effective on and after January 1, 2003, for purposes of applying the limits under Code Section 415(b) (the "Limit"), the following will apply:

- (1) A member's applicable limit will be applied to the member's annual benefit in the member's first limitation year of benefit payments without regard to any automatic cost of living adjustments;
- (2) thereafter, in any subsequent limitation year, a member's annual benefit, including any automatic cost of living increases, shall be tested under the then applicable benefit limit including any adjustment to the Code Section 415(b)(1)(A) dollar limit under Code Section 415(d), and the regulations thereunder; but
- (3) in no event shall a member's benefit payable under the plan in any limitation year be greater than the limit applicable at the annuity starting date, as increased in subsequent years pursuant to Code Section 415(d) and the regulations thereunder.

Unless otherwise specified in the plan, for purposes of applying the limits under Code Section 415(b), a Member's applicable limit will be applied taking into consideration cost of living increases as required by Section 415(b) of the Code and applicable Treasury Regulations.

(F) Other Adjustments in Limitations.

- (1) In the event the member's retirement benefits become payable before age sixty-two (62), the limit prescribed by this section shall be reduced in accordance with regulations issued by the Secretary of the Treasury pursuant to the provisions of Code Section 415(b) of the Code, so that such limit (as so reduced) equals an annual straight life benefit (when such

retirement income benefit begins) which is equivalent to an annual benefit in the amount of the applicable dollar limitation of Section 415(b)(1)(A) of the Code (as adjusted pursuant to Section 415(d) of the Code) beginning at age sixty-two (62).

- (2) In the event the member's benefit is based on at least fifteen (15) years of credited service as a full-time police officer or firefighter, the adjustments provided for in (F)(1) above shall not apply.
- (3) The reductions provided for in (F)(1) above shall not be applicable to disability benefits or pre-retirement death benefits.
- (4) In the event the member's retirement benefit becomes payable after age sixty-five (65), for purposes of determining whether this benefit meets the limit set forth herein, such benefit shall be adjusted so that it is actuarially equivalent to the benefit beginning at age sixty-five(65). This adjustment shall be made in accordance with regulations promulgated by the Secretary of the Treasury or his delegate.

16.03 Less than Ten (10) Years of Service.

The maximum retirement benefits payable under this section to any member who has completed less than ten (10) years of credited service shall be the amount determined under section 16.01 multiplied by a fraction, the numerator of which is the number of the member's years of credited service and the denominator of which is ten (10). The reduction provided by this section cannot reduce the maximum benefit below 10% of the limit determined without regard to this subsection. The reduction provided for in this section shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

16.04 Participation in Other Defined Benefit Plans.

The limit of this section with respect to any member who at any time has been a member in any other defined benefit plan as defined in Code Section 414(j) maintained by the Employer shall apply as if the total benefits payable under all Employer defined benefit plans in which the member has been a member were payable from one plan.

16.05 Ten Thousand Dollar (\$10,000) Limit.

Notwithstanding anything in this article to the contrary, the retirement benefit payable with respect to a member shall be deemed not to exceed the limit set forth in this article if the benefits payable, with respect to such member under this plan and under all other qualified defined benefit pension plans to which the Employer contributes, do not exceed ten thousand dollars (\$10,000) for the applicable limitation year and for any prior limitation year and the Employer has not at any time maintained a qualified defined contribution plan in which the member participated; provided, however, that if the member has completed less than ten years of credited service, the limit hereunder shall be a reduced limit equal to ten thousand dollars (\$10,000) multiplied by a fraction, the numerator of which is the number of the member's years of credited service and the denominator of which is ten.

16.06 Reduction of Benefits.

Reduction of benefits and/or contributions to all plans, where required, shall be accomplished by first reducing the member's benefit under any defined benefit plans in which member participated, such reduction to be made first with respect to the plan in which member most recently accrued benefits and thereafter in such priority as shall be determined by the board and the plan administrator of such other plans, and next, by reducing or allocating excess forfeitures to defined contribution plans in which the member participated, such reduction to be made first with respect to the plan in which member most recently accrued benefits and thereafter in such priority as shall be established by the board and the plan administrator for such other plans provided, however, that necessary reductions may be made in a different manner and priority pursuant to the agreement of the board and the plan administrator of all other plans covering such member.

16.07 Service Credit Purchase Limits.

(A) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one or more contributions to

purchase permissive service credit under the plan, then the requirements of this section will be treated as met only if:

- (1) the requirements of Code Section 415(b) are met, determined by treating the accrued benefit derived from all such contributions as an annual benefit for purposes of Code Section 415(b), or
- (2) the requirements of Code Section 415(c) are met, determined by treating all such contributions as annual additions for purposes of Code Section 415(c).
- (3) For purposes of applying subparagraph (A)(1), the plan will not fail to meet the reduced limit under Code section 415(b)(2)(C) solely by reason of this subparagraph (3), and for purposes of applying subparagraph (A)(2) the plan will not fail to meet the percentage limitation under Section 415(c)(1)(B) of the Code solely by reason of this subparagraph (3)

(B) For purposes of this subsection the term “permissive service credit” means service credit—

- (1) recognized by the plan for purposes of calculating a member’s benefit under the plan.
- (2) which such member has not received under the plan, and
- (3) which such member may receive only by making a voluntary additional contribution, in an amount determined under the plan, which does not exceed the amount necessary to fund the benefit attributable to such service credit.

Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may, if otherwise provided by the plan, include service credit for periods for which there is no performance of service, and, notwithstanding clause (B)(2), may include service credited in order to provide an increased benefit for service credit which a member is receiving under the plan.

(C) For purposes of applying the limits in this Section 16.07 only and for no other purpose, the definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by Treasury Regulations located in 26 CFR 1.415(c)-2, or successor regulations. Unless

another definition of compensation that is permitted by Treasury Regulations Section 1.415(c)-2, or successor regulation, is specified by the plan, compensation will be defined as wages within the meaning of Code Section 3401(a) and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under Code Sections 6041(d), 6051(a)(3) and 6052 and will be determined without regard to any rules under Code Section 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in Code Section 3401(a)(2)).

- (1) However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an election under Code Sections 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b). For limitation years beginning after December 31, 2000, compensation will also include any elective amounts that are not includible in the gross income of the employee by reason of Code Section 132(f)(4).
- (2) For limitation years beginning on and after January 1, 2007, compensation for the limitation year will also include compensation paid by the later of 2½ months after an employee's severance from employment or the end of the limitation year that includes the date of the employee's severance from employment if:
 - a. the payment is regular compensation for services during the employee's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee which the employee continued in employment with the employer; or
 - b. the payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued.

- (3) Back pay, within the meaning of Treasury Regulations Section 1.415(c) - 2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.
- (D) Notwithstanding any other provision of law to the contrary, the Board may modify a request by a member to make a contribution to the plan if the amount of the contribution would exceed the limits provided in Code Section 415 by using the following methods:
 - (1) If the law requires a lump sum payment for the purchase of service credit, the Board may establish a periodic payment deduction plan for the member to avoid a contribution in excess of the limits under Code Sections 415(c) or 415(n).
 - (2) If payment pursuant to subparagraph (D)(1) will not avoid a contribution in excess of the limits imposed by Code Section 415(c), the Board may either reduce the member's contribution to an amount within the limits of that section or refuse the member's contribution
- (E) If the annual additions for any member for a plan year exceed the limitation under Code Section 415(c), the excess annual addition will be corrected as permitted under the Employee Plans Compliance Resolution System (or similar IRS correction program).
- (F) For limitation years beginning on or after January 1, 2009, a member's compensation for purposes of this section shall not exceed the annual limit under Code Section 401(a)(17).

16.08 Additional Limitation on Pension Benefits.

Notwithstanding anything herein to the contrary:

- (1) The normal retirement benefit or pension payable to a retiree who becomes a Participant of the Plan and who has not previously participated in such Plan, on or after January 1, 1980, shall not exceed one hundred percent (100%) of average final compensation. However, nothing contained in this section shall apply to supplemental retirement benefits or to pension increases attributable to cost-of-living increases or adjustments.

- (2) No Participant shall be allowed to receive a retirement benefit or pension which is in part or in whole based upon any service with respect to which the Participant is already receiving, or will receive in the future, a retirement benefit or pension from a different employer's retirement system or plan. This restriction does not apply to social security benefits or federal benefits under Chapter 67, Title 10, U.S. Code.

(C) PARTICIPATION

- (1) All Participants, Pensioners and Beneficiaries of the Plan whose retirement or survivor benefits from that Plan for a Plan Year have been limited by Code Section 415 are eligible to participate in this Benefit Restoration Plan, unless excluded by category under the terms of the Information Sheet.
- (2) Participation in the Benefit Restoration Plan is automatic. Any Participant, Pensioner or Beneficiary who is eligible for benefits is entitled to such benefits without the necessity of enrollment. Participation in the Benefit Restoration Plan will cease for any Plan Year in which the retirement benefit of a Pensioner or Beneficiary is not limited by Code Section 415.

(D) BENEFITS

(1) **Benefit Amount**

A covered Pensioner or Beneficiary shall receive a monthly benefit equal to the difference between the participant's monthly retirement benefit otherwise payable from the Plan prior to any reduction or limitation because of Code Section 415 and the actual monthly retirement benefit payable from the Plan as limited by Code Section 415. The monthly benefit shall be subject to withholding for any applicable income or employment taxes.

(2) Payment of Benefit

Benefits under the Benefit Restoration Plan shall be paid only if the Pensioner or Beneficiary is receiving retirement benefits from the Plan.

(3) Form of Benefit

The form of the benefit paid to a Pensioner or Beneficiary from the Benefit Restoration Plan shall be the same payable under the Plan.

(4) Re-calculation of Benefits

The maximum benefit under the Plan shall be increased as permitted by Internal Revenue Service regulations to reflect cost-of-living adjustments above the base period, and from August 1, 2000, the benefit paid to any Participant or Beneficiary who is in payment status will be adjusted as the first day of each limitation year for the increase, if any, in the dollar limitation indexed under section 415(d) of the Code.

(E) CONTRIBUTIONS AND FUNDING

(1) Contributions

- (a) The Board, upon the recommendation of the actuary, shall determine the required contributions to pay plan benefits in accordance with (3) below. The required contribution for each Plan Year shall be the total amount of benefits payable under (D) to all Pensioners and Beneficiaries, plus such amount as determined by the Board to pay the administrative expenses of the Benefit Restoration Plan and the Employer's share of any employment taxes on the benefits paid from the Plan.
- (b) The required contribution as determined by the Board, upon the recommendation of the actuary, shall be paid into the Trust from an allocation of the Employer contribution amounts paid under the Plan.

(2) Benefit Restoration Plan Trust Fund

Contributions to the Benefit Restoration Plan shall be deposited in the separate Trust established and administered by the Board. This Trust is intended to be exempt from federal income tax under Code Sections 115 and 415(m)(1). The Trust assets shall be subject to the claims of general creditors of the Employer in the case of bankruptcy.

(3) Funding Assets

The benefit liabilities of the Benefit Restoration Plan shall be funded on an as-needed basis. The Trust established under (2) above shall not be accumulated to pay benefits payable in future years. Accordingly, any assets of the Trust shall be invested by the Board in short-term investments as the Board may determine to assure preservation of principal rather than the generation of income.

(4) Non-assignability of Benefits

The benefits payable under this Benefit Restoration Plan may not be assigned or alienated, except as otherwise permitted for benefits payable by the Plan.

(5) Amendment and Termination

The Employer reserves the right to amend this Benefit Restoration Plan at any time. No modification or amendment of the Benefit Restoration Plan shall make it possible for any part of the income or assets of the fund to be used for, or diverted to, purposes other than for the exclusive benefit of the Participants, Pensioners and Beneficiaries, except as set forth in section (2) above.

The Employer reserves the right to discontinue or terminate this Benefit Restoration Plan in whole or in part. Upon a termination of the Benefit Restoration Plan, the Board shall take such steps as the Board determines to be necessary or desirable to comply with applicable laws and to apply any remaining assets.

If, after satisfaction of all liabilities, there is any balance remaining in the fund, such balance shall be refunded to the Employer if not otherwise prohibited by law.

(F) ADMINISTRATION

(1) Benefit Restoration Plan Administration

The Benefit Restoration Plan shall be administered by the Board. The Board shall have the same authority to administer the Benefit Restoration Plan as exists for the Plan. The Board may delegate any or all of the Board's administrative authority.

(2) Compliance Authority

The Board may make modifications to the benefits payable under the Benefit Restoration Plan as may be necessary to maintain its qualified status under Code Section 415(m).

(3) No Liability for Benefits

Since this Benefit Restoration Plan is not intended to accumulate funds, the Benefit Restoration Plan shall not be liable for the payment of any benefits except to the extent of funds actually received from the Employer and not previously distributed or applied to pay Benefit Restoration Plan expenses.

- (4)** This Benefit Restoration Plan shall be construed, administered and governed in all respects by the laws of the State of Florida.

(G) EFFECTIVE DATES

The Board shall pay benefits under the Benefit Restoration Plan beginning on or after the date specified on the Information Sheet.

ARTICLE 17

DISTRIBUTION OF BENEFITS

As of the Effective Date, this Plan shall pay all benefits in accordance with a good faith interpretation of the requirements of Code Section 401(a)(9) and the regulations promulgated thereunder, as applicable to a governmental plan as defined in Code Section 414(d). Notwithstanding any other provision of this Plan to the contrary, a form of retirement income payable from this Plan shall satisfy the following conditions:

- (A)** If the retirement income is payable before the Participant's death,
 - (1)** It shall either be distributed or commence to the Participant not later than April 1 of the calendar year following the later of the calendar year in which the Participant attains age seventy and one-half (70½), or the calendar year in which the Participant retires; and,
 - (2)** the benefit shall be paid over the life of the Participant or over the lifetimes of the Participant and designated beneficiary and shall be paid over the period extending not beyond the life expectancy of the Participant and designated beneficiary

Where benefit payments have commenced in accordance with the preceding paragraphs and the Participant dies before his entire interest in the Plan has been distributed, the remaining portion of such interest in the Plan shall be distributed no less rapidly than under the form of distribution in effect at the time of the Participant's death.

(B) If the Participant dies before distributions begin, the Participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

- (1)** If the Participant's surviving spouse is the Participant's sole designated beneficiary, then, except as provided in the adoption agreement, distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the

Participant died, or by December 31 of the calendar year in which the Participant would have attained age 70½, if later.

- (2) If the Participant's surviving spouse is not the Participant's sole designated beneficiary, then, except as provided in the adoption agreement, distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.
- (3) If there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, the Participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.
- (4) If the Participant's surviving spouse is the Participant's sole designated beneficiary and the surviving spouse dies after the Participant but before distributions to the surviving spouse are required to begin, this subsection (B), other than B(1), will apply as if the surviving spouse were the Participant. For purposes of this subsection, unless this provision B(4) applies, distributions are considered to begin on the Participant's required beginning date. If this provision B(4) applies, distributions are considered to begin on the date distributions are required to begin to the surviving spouse under B(4). If distributions under an annuity meeting the requirements of this article commence to the Participant before the Participant's required beginning date (or to the Participant's surviving spouse before the date distributions are required to begin to the surviving spouse under B(1)), the date distributions are considered to begin is the date distributions actually commence.

(C) Direct Transfers of Eligible Rollover Distributions

- (1) This paragraph applies to distributions made on or after January 1, 1993. Notwithstanding any provisions of the Plan to the contrary that would otherwise limit a distributee's (as defined below) election under this paragraph, a distributee may elect, at the time and in the manner prescribed by the Plan Administrator, to have

any portion of an eligible rollover distribution (as defined below) that is equal to at least \$500 paid directly to an eligible retirement plan (as defined below) specified by the distributee in a direct rollover (as defined below). If an eligible rollover distribution is less than \$500, a distributee may not make the election described in the preceding sentence to rollover only a portion of the eligible rollover distribution.

(2) For purposes of this paragraph, the following terms shall have the following meanings:

(i) An “eligible rollover distribution” is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee’s designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Code Section 401(a)(9), and the portion of any distribution that is not included in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities); and any other distribution(s) that is reasonably expected to total less than \$200 during a year.

A portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to (1) a traditional individual retirement account or annuity described in § 408(a) or (b) of the Code (a —traditional IRA) or a Roth individual retirement account or annuity described in § 408A (a —Roth IRA); or (2) to a qualified defined contribution, defined benefit, or annuity plan described in § 401(a) or § 403(a) or to an annuity contract described in § 403(b), if such plan or contract provides for separate accounting for amounts so transferred (including interest thereon), including separately

accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

(ii) An “eligible retirement plan” is an eligible plan under § 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this plan, a traditional IRA, a Roth IRA, an annuity plan described in § 403(a) of the Code, an annuity contract described in § 403(b) of the Code, or a qualified defined benefit or defined contribution plan described in § 401(a) of the Code, that accepts the distributee’s eligible rollover distribution. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in § 414(p) of the Code.

(iii) A “distributee” includes an Employee or former Employee. In addition, the Employee’s or former Employee’s surviving spouse is a distributee with regard to the interest of the spouse. For distributions occurring in plan years beginning after December 31, 2009 (or in any earlier plan year beginning after December 31, 2006), a distributee also includes the Participant’s non-spouse designated beneficiary. In the case of a non-spouse beneficiary, the direct rollover may be made only to a traditional IRA or Roth IRA that is established on behalf of the designated beneficiary and that will be treated as an inherited IRA pursuant to the provisions of § 402(c)(11). Also, in this case, the determination of any required minimum distribution under § 401(a)(9) that is ineligible for rollover shall be made in accordance with Notice 2007-7, Q&A 17 and 18, 2007-5 I.R.B. 395.

(iv) A “direct rollover” is a payment by the Plan to the eligible retirement plan specified by the distributee.

ARTICLE 18

MISCELLANEOUS PROVISIONS

18.01 Interest of Participants in Plan

All assets of the Fund shall be held in trust and at no time prior to the satisfaction of all liabilities under the Plan with respect to Participants and Beneficiaries, shall any part of the corpus or income of the Fund be used for or diverted to any purpose other than for their exclusive benefit. 18.02 Summary Plan Descriptions

The Summary Plan Description outlining the provisions of this Plan was designed only to give a brief description of the benefit provided and does not include all the provisions or exclusions in the Plan Document. If the Summary Plan Description disagrees with the Plan herein in any way, the Plan Document will govern.

18.03 Gender and Number

Wherever any words are used in the masculine, feminine or neutral gender, they shall be construed as though they were also used in another gender in all cases where they would apply. Whenever any words are used herein in the singular or plural form, they shall be construed as though they were also used in the other form in all cases where they would apply.

18.04 Headings and References

All headings and references to sections, subsections, paragraphs, etc., in this Plan are inserted for convenience only and shall not affect the construction or interpretation of this Plan.

18.05 Benefit Improvements

Benefit improvements which, in the past, have been provided for by amendments to the Plan adopted by the Employer by ordinance or resolution, and any benefit improvements which might be made in the future, shall apply prospectively and shall not apply to Participants who terminate employment or who retire prior to the effective date of any ordinance or resolution adopting such benefit improvements, unless such ordinance or resolution specifically provides to the contrary.

18.06 Procedure for Unclaimed Benefit

If the Board is unable, within three years after any benefit becomes due to a Participant or Beneficiary under the Plan, to authorize payment because the identity or whereabouts of such person cannot be ascertained, the Board may direct that such benefit and all further benefits with respect to such person shall be forfeited and all liability for the payment thereof shall terminate.

18.07 Qualified Military Service:

Notwithstanding any provision of this Plan to the contrary, contributions, benefits, and service credit with respect to qualified military service will be provided in accordance with § 414(u) of the Code. To the extent that the definition of “credited service” sets forth contribution requirements that are more favorable to the participants than the minimum compliance requirements, the more favorable provisions shall apply.

Consistent with the Heroes Earning Assistance and Relief Tax (HEART) Act, a deceased person’s period of qualified military service will be credited service under the Plan.

If a Participant dies while engaged in qualified military service, the Participant’s beneficiaries shall be entitled to any benefits the Participant would have been entitled to as if the Participant had resumed employment immediately prior to his or her death in accordance with the Heroes Earning Assistance and Relief Tax (HEART) Act, and any regulations promulgated thereunder.

18.08 Domestic Relations Order Submission:

(A) Prior to the entry of any domestic relations order which affects or purports to affect the Fund's responsibilities in connection with the payment of benefits, that order should be submitted through the Fund's administrator for review as to whether the Fund may honor it.

(B) If the domestic relations order is not submitted to the administrator for review prior to entry, and the Fund is ordered to take action that it may not legally take, and the Fund expends administrative or legal fees in resolving the matter, the Participant who submitted the domestic relations order will be required to reimburse the Fund its expenses in connection with the order.

(C) The administrator may develop rules or regulations concerning what the Fund will consider to determine if a domestic relations order may be complied with by the Fund.

18.09 Prohibited Transaction

Effective January 1, 1989, the Board may not engage in any transaction prohibited under Section 503(b) of the Code.

18.10 Qualification of Plan

It is intended that this plan shall constitute a qualified public pension plan under the applicable provisions of the Code for a qualified plan under Code Section 401(a) and a governmental plan under Code Section 414(d), as now in effect and as may be amended from time to time. Any modification or amendment of this Plan may be made retroactively, if necessary or appropriate to maintain qualification.

18.11 Plan Amendments

The Employer acknowledges the FMPTF Defined Benefit Plan document may be amended from time to time by the FMPTF Master Trustee to comply with applicable federal or state laws or regulations, and to make ministerial or administrative changes to the Plan, without the consent of the Employer or of Participants or any Beneficiaries thereof. Any amendment of the Plan, made in accordance with this provision, may be made retroactively, if deemed necessary or appropriate by the FMPTF Master Trustee.

A copy of any Plan amendment shall be delivered to the Plan administrator, and the Plan shall be amended in the manner and effective as of the date set forth therein, and the Employers, Employees, Participants and Beneficiaries shall be bound by the amendment. The FMPTF Master Trustee shall not make any amendment to benefits under the Plan unless the amendment is necessitated to comply with applicable federal or state laws or regulations. Employers shall receive copies of any Plan amendments made by the FMPTF Master Trustee.

ARTICLE 19

REPEAL OR TERMINATION OF PLAN

(A) This Plan and Fund may be modified, terminated, or amended, in whole or in part at any time by the Employer; provided that if this Plan or any subsequent ordinance or resolution shall be amended or repealed in its application to any person benefiting hereunder, the amount of benefits which at the time of any such alteration, amendment, or repeal shall have accrued to the Participant or beneficiary shall not be affected thereby, except to the extent that the assets of the Fund may be determined to be inadequate.

(B) If this Plan shall be repealed, or if contributions to the Plan are discontinued, or if there is a transfer, merger or consolidation of government units, services or functions as provided in Chapter 121, Fl. Stat., the Board shall continue to administer the Plan in accordance with the provisions of this Plan, for the sole benefit of the then Participant's, any beneficiaries then receiving retirement allowances, and any future persons entitled to receive future benefits. In the event of repeal, termination or permanent discontinuance of contributions due to transfer, merger or consolidation of government units, services or functions, or for any other reason, there shall be full vesting (100%) of benefits accrued to date of repeal and the assets of the Plan shall be allocated as follows:

(C) General Employees

Benefits for General Employees shall be distributed in an equitable manner to provide benefits on a proportionate basis to the persons so entitled in accordance with the provisions of this Plan. The following shall be the order of priority for purposes of allocating the assets of the Plan as of the date of repeal of this Plan, or if contributions to the Plan are discontinued with the date of such discontinuation being determined by the Employer.

(1) Apportionment shall first be made in respect of each retired Participant receiving a retirement or disability benefit hereunder on such date, each person receiving a benefit on such date on account of a retired or disabled (but since deceased) Participant, and each Participant who has, by such date, become eligible

for normal retirement but has not yet retired, an amount which is the actuarial equivalent of such benefit, based upon the actuarial assumptions in use for purposes of the most recent actuarial valuation, provided that, if such asset value be less than the aggregate of such amounts, such amounts shall be proportionately reduced so that the aggregate of such reduced amounts will be equal to such asset value.

(2) If there be any asset value remaining after the apportionment under paragraph 1, apportionment shall next be made in respect of each Participant in the service of the Employer on such date who has completed at least ten (10) Years of Credited Service and who is not entitled to an apportionment under paragraph 1, in the amount required to provide the Actuarial Equivalent, as described in paragraph 1 above, of the accrued Normal Retirement Benefit, based on the Credited Service and Salary as of such date, and each vested former Participant then entitled to a deferred benefit who has not, by such date, begun receiving benefit payments, in the amount required to provide said Actuarial Equivalent of the accrued Normal Retirement Benefit, provided that, if such remaining asset value is less than the aggregate of the amounts apportioned hereunder, such latter amounts shall be proportionately reduced so that the aggregate of such reduced amounts will be equal to such remaining asset value.

(3) If there be any asset value after the apportionments under paragraph 1 and 2 above, apportionment shall be made in respect of each Participant in the service of the Employer on such date who is not entitled to an apportionment under paragraphs 1 and 2 above in the amount equal to Participant's Accumulated Contributions, provided that, if such remaining asset value be less than the aggregate of the amounts apportioned hereunder, such latter amount shall be proportionately reduced so that the aggregate of such reduced amounts will be equal to such remaining asset value.

(4) If there be any asset value remaining after the apportionments under paragraphs 1, 2, and 3 above, apportionment shall lastly be made in respect of each participant included in paragraph 3 above to the extent of the Actuarial Equivalent,

as described in paragraph 1 above, of the accrued Normal Retirement Benefit, less the amount apportioned in paragraph 3 above, based on the Credited Service and Average Final Compensation as of such date, provided that, if such remaining asset value be less than the aggregate of the amounts apportioned hereunder, such amounts shall be reduced so that the aggregate of such reduced amounts will be equal to such remaining asset value.

(5) In the event that there be asset value remaining after the full apportionment specified in paragraphs 1, 2, 3, and 4 above, such excess shall be returned to the Employer, less return of the State's contributions to the State if applicable, provided that, if the excess is less than the total contributions made by the Employer and the State to the date of termination such excess shall be divided proportionately to the total contributions made by the Employer and the State.

The allocation of the Fund provided for in this subsection may, as decided by the Board and the Employer be carried out through the purchase of insurance company contracts to provide the benefits determined in accordance with this subsection. The Fund may be distributed in one sum to the persons entitled to said benefits or the distribution may be carried out in such other equitable manner as the Board and the Employer may direct. The Trust may be continued in existence for purposes of subsequent distributions.

(6) After all the vested and accrued benefits provided hereunder have been paid and after all other liabilities have been satisfied, then and only then, shall any remaining funds be reverted to of the Employer.

(D) Police Officers and Firefighters

Benefits for Police Officers and Firefighters for plans participating in Chapters 175 or 185, Fl. Stat., shall be distributed in accordance with the following procedure:

(1) The Board shall determine the date of distribution and the asset value required to fund all the nonforfeitable benefits, after taking into account the expenses of such distribution. The Board shall inform the Employer if additional assets are required, in which event the Employer shall continue to financially support the plan until all nonforfeitable benefits have been funded.

(2) The Board shall determine the method of distribution of the asset value, that is, whether distribution shall be by payment in cash, by the maintenance of another or substituted trust fund, by the purchase of insured annuities, or otherwise, for each participant entitled to benefits under the plan as specified in paragraph (3).

(3) The Board shall distribute the asset value as of the date of termination in the manner set forth in this subsection, on the basis that the amount required to provide any given retirement income shall mean the actuarially computed single-sum value of such retirement income, except that if the method of distribution determined under paragraph (2) involves the purchase of an insured annuity, the amount required to provide the given retirement income shall mean the single premium payable for such annuity. The actuarial single-sum value may not be less than the employee's accumulated contributions to the plan, with interest if provided by the plan, less the value of any plan benefits previously paid to the employee.

(4) If in the event that there is asset value remaining after the full distribution as specified in paragraph (3), and after the payment of any expenses incurred with such distribution, such excess shall be returned to Employer, less return to the state of the state's contributions, provided that, if the excess is less than the total contributions made by the Employer and the state to date of termination of the plan, such excess shall be divided proportionately to the total contributions made by the Employer and the state.

ARTICLE 20

EXEMPTION FROM EXECUTION, NON-ASSIGNABILITY

The pensions, annuities, or any other benefits accrued or accruing to any person under the provisions of this Plan, the Accumulated Contributions and the assets in the Fund created under this Plan are exempt from any state, county or municipal tax of the state and shall not be subject to execution, attachment, garnishment or any legal process whatsoever and shall be unassignable.

ARTICLE 21

Said Participant shall be afforded the right to have an attorney present. No formal rules of evidence shall apply, but the Participant shall be afforded a full opportunity to present his case against forfeiture.

(D) Any Participant who has received benefits from the Plan in excess of his Accumulated Contributions after Participant's rights were forfeited pursuant to this section shall be required to pay back to the Fund the amount of the benefits received in excess of his Accumulated Contributions. The Board may implement all legal action necessary to recover such funds.

(E) As provided in the Florida Statutes, it is unlawful for a person to willfully and knowingly make, or cause to be made, or to assist, conspire with, or urge another to make, or cause to be made, any false, fraudulent, or misleading oral or written statement or withhold or conceal material information to obtain any benefit from the Plan. A person who commits a crime is punishable as provided in Section 775.082 or Section 775.083, Florida Statutes.

Florida Municipal Pension Trust Fund – DB 60/40 Allocation

Executive Summary

As of March 31, 2015

60/40 Allocation

- ◆ The 60/40 Allocation rose 2.4% in the first quarter, ahead of both the target index and the peer group of similarly-allocated funds (both up 2.2%), thereby capitalizing on the continued strength in global equity markets and strong relative returns from most equity managers.
- ◆ Over the past 5 years, this allocation has recorded strong absolute returns (up 9.1% on average annually) which was well ahead of absolute return expectations but lower than the target index and fund peer group, owing primarily to the risk-controlled posture and the market's increased risk appetite over the majority of this time frame.
- ◆ While this strategy has been challenged to keep pace with the target index and similarly-allocated peer group over the past 5-10 years, the lower risk profile has resulted in more favorable comparisons based on risk-adjusted returns and should provide strong downside protection if market returns moderate or contract.

FMIvT Broad Market High Quality Bond Fund

- ◆ The Broad Market High Quality Bond Fund returned 1.3% in the first quarter, modestly below that of the Barclays Capital Aggregate A+ Index (up 1.5%) and the core bond manager peer group (up 1.7%) as above average exposure to the relatively weak asset-backed securities and a defensive duration posture paced performance this quarter.
- ◆ The fund has displayed a consistent pattern of performance, posting absolute returns of 4.7% on average annually over the past 10 years. While this performance is in line with the benchmark, it lags the peer group during this period, as the high quality focus provided a headwind, particularly over the past 5 years.
- ◆ The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias had rewarded investors in the form of a favorable relative risk-adjusted return profile over the long-term.

FMIvT Core Plus Fixed Income Fund

- ◆ The Core Plus Fixed Income Fund was added to the FMIvT lineup in April 2014 to provide broad exposure to the global fixed income markets, with the flexibility to invest across the full spectrum of security types, quality ratings and geography.
- ◆ The fund has two underlying managers with strong expertise in the global marketplace, and is implemented with equal allocations to the Pioneer Multi-Sector Fixed Income Fund and the Franklin Templeton Global Multi-Sector Plus Fund.
- ◆ In the year since inception, this fund has risen 1.6% which is well ahead of the Barclays Multiverse Index (down 3.8%), with the headwind of the shorter duration posture more than offset by higher exposure to the relatively strong U.S. marketplace.

FMIvT High Quality Growth Equity Fund

- ◆ The High Quality Growth Equity Fund was up 0.6% in the first quarter, below the Russell 1000 Growth Index (up 3.8%) and the large cap growth manager peer group (up 3.7%), as adverse security selection, particularly in the consumer discretionary and industrial sectors, held back performance during this period.
- ◆ This strategy has struggled to keep pace with the very strong equity market over the past several years, which has moderated the longer-term return profile. This time frame has been dominated by mostly strong equity markets, thereby downplaying the downside protection of this strategy.
- ◆ The high quality and growth oriented focus of this strategy positions this fund to provide consistent performance over long periods of time, while also representing a strong complement to the large cap value-oriented strategy within the FMIvT lineup.

Florida Municipal Pension Trust Fund – DB 60/40 Allocation

Executive Summary

As of March 31, 2015

FMIvT Diversified Value Fund

- ◆ The Diversified Value Fund rose 0.6% in the first quarter, outperforming both the Russell 1000 Value Index (down 0.7%) and the large cap value manager peer group (up 0.4%), as the positive effects of strong stock selection in the healthcare and consumer discretionary sectors was paced somewhat by adverse selection in technology and energy stocks.
- ◆ Very strong outperformance for this strategy over the past several years has bolstered the longer-term performance characteristics, such that this fund is more than 100 basis points ahead of its benchmark on average annually over the past 5 years and is ranked in the top 24th percentile of similar value managers over that time frame.
- ◆ This strategy focuses on economic principles and valuations as the key drivers of stock selection, not momentum or growth, representing a strong complement to the other large cap managers in the FMIvT lineup.

FMIvT Russell 1000 Enhanced Index

- ◆ The Russell 1000 Enhanced Index Fund advanced 3.5% in the first quarter, well ahead of both the Russell 1000 Index (up 1.6%) and the peer group of large cap core equity managers (up 1.8%) as the mathematical investment process employed continues to rebound from the challenging results several years ago.
- ◆ This enhanced large cap strategy is focused on producing a consistent (albeit modest) enhancement to the Russell 1000 Index, and has achieved this objective over the long-term as evidenced by the 120 percentage points of excess returns on average annually over the past 5 years.

FMIvT Diversified Small to Mid Cap Equity Fund

- ◆ The Diversified Small to Mid Cap Equity Fund posted the strongest performance in the FMIvT lineup in the first quarter, rising 6.1% and outpacing both the Russell 2500 Index (up 5.2%) and the peer group of SMID cap core equity managers (up 5.3%). Strong financial and technology stock selection contributed the most to performance this period.
- ◆ This strategy has generated very strong results over the past 10 years, rising 13.0% on average annually compared with 9.6% for the benchmark and 10.9% for the peer group, thereby ranking in the top decile of its peer group with a lower risk profile and a compellingly positive risk-adjusted return comparisons.

FMIvT International Equity Portfolio

- ◆ The FMIvT International Equity Portfolio capitalized on the rebound in international equity markets, rising 5.1% in the first quarter, well ahead of both the MSCI ACWI benchmark (up 3.6%) and the international equity peer group (up 3.4%). Beneficial healthcare and technology positions and an underweight to the relatively weak UK market aided returns.
- ◆ In the two quarters since inception of the new manager (Investec), this strategy has advanced 2.8%, outperforming both the MSCI ACWI Index (down 0.4%) and the peer group of international equity managers (up 2.1%).

Market Overview

For the Periods Ending March 31, 2015

Overview of Capital Markets (First Quarter)

First quarter economic performance was restrained by several transitory factors that reduced business activity, factory output and capital investment. The US manufacturing sector took the brunt of the pain, hurt by a stronger US dollar (USD), further declines in oil prices and a strike at West Coast ports, resulting in supply bottlenecks. The tepid pace of activity led the Federal Reserve (Fed) to reassess current economic prospects, indicating they will remain “patient” before hiking interest rates to allow more time to fully process the strength of the economy.

Temporary headwinds facing business activity...

A gauge of manufacturing expanded in March at the slowest pace in almost two years as factories reduced production in the face of dampened foreign demand due to a stronger USD. Moreover, energy related companies slowed business investment due to the collapse in oil prices, making projects less profitable, while a work stoppage at West Coast ports curtailed supply chains, limiting the ability to fill factory orders.

Underlying economic strength still existent...

Despite the obstacles facing manufacturing, there were indications of continued underlying positive momentum in the services sector. Retail remained strong after data showed new orders rose to a four-month high in March and employment in the sector grew in March for the 13th consecutive month. However, overall employment gains trended lower for the quarter after reports showed US employers added 126,000 jobs in March, ending 12 consecutive months of monthly gains exceeding 200,000, which was the longest stretch since 1995.

US consumers upbeat about future prospects...

Still, Americans were more upbeat about job and income prospects as the University of Michigan’s consumer sentiment index in March capped the strongest quarter since 2004 averaging 95.5 over the past three months. Improving labor market conditions and more upbeat sentiment among consumers provided the framework for spending to accelerate.

During its March meeting, the Fed adjusted its assessment to growth from “solid” to “moderated somewhat,” explicitly adding “export growth has weakened” recognizing the headwinds posed by a strengthening USD that reduced the competitiveness of US goods and services globally. Furthermore, the scale back in growth expectations led policy makers to rule out a hike in April and note that it had not decided on the timing of the initial move. Generally, the recent headwinds are expected to be temporary in nature, as prospects for the economy remain fundamentally strong with an improving job market helping to underpin demand.

Market Overview

For the Periods Ending March 31, 2015

Global Equities

Stocks advanced globally at an uneven pace during the first quarter amid signs of renewed economic growth in Europe and Japan, while mixed economic data in the US weighed on the advance in equity prices. The MSCI World index rose 5% (local currency – LC), but USD strength due to expectations of the Fed normalizing interest rates this year helped keep a lid on USD returns, rising only 2.5%. The MSCI EAFE index rose 11% (LC) and 5% (USD). In January, the European Central Bank (ECB) announced plans to purchase 60 billion euros of debt monthly through at least September 2016. The program is designed to fulfill the ECB's price stability mandate and bolster economic growth. The ECB's unprecedented monetary stimulus and uncertainty regarding Greece's ability to avert a default led to the euro's biggest quarterly decline versus the USD since its inception. The euro slid 11% over the past three months, the most since the shared currency began trading on Jan. 1, 1999. European shares soared during the quarter on the prospects of a rebound in corporate earnings after economic data beat expectations. The benchmark Stoxx Europe 600 index advanced 16.8% (LC) and 3.6% (USD) after reaching its highest level since 2000 on March 20. US stocks posted modest gains despite the S&P 500 hitting new record highs in March after slumping oil prices raised concerns regarding future corporate profit growth. The S&P 500 gained 1%, led by health care stocks (+6.5%), which benefitted from mergers and acquisitions activity in the pharmaceutical sector. Small cap stocks outpaced both large and mid cap in the first quarter as investors rotated toward companies that are more likely to benefit from a strong domestic economy and are less affected by the strengthening USD. The Japanese stock market climbed for the fourth straight quarter benefiting from global rotation toward international equities. The Nikkei 225 gained 10.7% (LC) and 10.2% (USD). Emerging markets posted their best start to a year since 2012 after Chinese economic growth fell just short of the government's 7.5% target, alleviating concerns it was headed for a hard landing.

Global Bonds

US Treasury yields fell across the yield curve in the first quarter. Yields declined after the Fed signaled uncertainty regarding the timing of the initial move to raise rates. Demand was also fueled by the compelling yield differentials of US Treasuries vs. euro region sovereign debt. Two year US Treasury yields dropped 11 basis points (bps) to 0.56%, while 10-year yields declined 25 bps to 1.92%. The Bank of America Merrill Lynch US Treasury index climbed 1.8%, following a gain of 2.3% during the fourth quarter. US corporate bonds rallied amid the continued search for higher yielding fixed income securities. Average yields on the Barclays US Corporate Investment Grade index fell to 2.91% from 3.11% at the start of 2015, generating a quarterly return of 2.3%. Yields also fell on riskier corporate bonds as the average yield on the Barclays US Corporate High Yield index declined to 6.18% from 6.61%, returning 2.5% for the quarter. Within the high yield market, the major selloff in the energy sector created opportunities for some investors as average yields dropped 49 bps to 8.86% during the quarter, driving gains of 2.4% on energy related issues.

The ECB held its benchmark policy rate at 0.05% during its March policy meeting and reiterated that it is highly unlikely its purchases of bonds would be curtailed despite the recent economic rebound. The ECB's expanded bond-buying program sent sovereign yields across the region tumbling. Germany's two-year yield fell to -0.26%, the lowest since 1990 per Bloomberg data, while the country's 10-year yield declined 36 bps to 0.18%. Italy's 10-year yield fell 65 bps to 1.24% and Spanish 10-year yields declined 40 bps to 1.21%. Higher yielding emerging markets assets benefited from the global search for yield as the Barclays Emerging Market USD index rose 2.3%, as yields fell to 5.31% from 5.66% at the start of the year. Local currency EM debt performance was positive on a hedged basis as the Barclays EM Local Currency Government index gained 1.4%, but declined 2.7% on a USD basis.
