In accordance with Florida Statute 286.0105: Any person who desires to appeal any decision at this meeting will need a record of the proceedings and for this purpose may need to ensure that a verbatim record of the proceedings is made which includes the testimony and evidence upon which the appeal is based.

In accordance with Florida Statute 286.26: Persons with disabilities needing assistance to participate in any of these proceedings should contact Judd Lent, Clermont Fire Department, 352-394-7662 at least 48 hours in advance of the meeting.

*City of Clermont*  
MINUTES  
FIREFIGHTER RETIREMENT PLAN BOARD OF TRUSTEES MEETING  
September 14, 2017

The Firefighters Retirement Plan Board of Trustees met in a regular meeting on Thursday, September 14, 2017 in the Council Chambers at City Hall. Firefighters' trustees present: Judd Lent, Ryan Moore, Adam Watkins, and Jim Purvis. Attorney Jensen was present via telephone conference call. Jeremy Langley; Florida League of Cities, was present. Staff members present: Finance Director Van Zile, Risk and Benefits Manager Ohlinger, and Deputy City Clerk Noak.

Board Member Holzman was not present.

**CALL TO ORDER**

Chairman Lent called the meeting to order at 1:30pm.

**PUBLIC COMMENTS**

Chairman Lent opened for public comments. There were no public comments. Chairman Lent closed public comments.

**APPROVAL OF MINUTES**

*Approval of minutes of the June 28, 2017 Fire Pension Board Meeting.*

Board Member Purvis moved for approval; seconded by Board Member Moore. The motion passed unanimously.

**UNFINISHED BUSINESS**

*Discussion of Pension Plan Performance Review*

Finance Director VanZile reported on having an outside review of the current plan. The agency; PFM, was contacted and they are willing to review the plan at no charge. The review will be presented to the Board at a future meeting.

Jeremy Langley noted the Florida League of Cities does not object to having a review by an outside agency; however, they would like to have an opportunity to review the report and respond if necessary. The Florida League of Cities pension plan program operates differently than many other pension plans, which could affect the review.

Board Member Moore moved to allow PFM to perform the review; seconded by Board Member Watkins. The motion passed unanimously.

**NEW BUSINESS**

*Discussion of Trustee Elections and Appointments*

The Board Member positions are up for election, including the two City Council appointed outside members. The City will advertise for the City Council appointed positions and will present the names to the City Council for selection. City Clerk Ackroyd Howe will send out a request for nominations to the eligible firefighters and an election will be held if more than two individuals are nominated. The Board will select the third member to serve on the Board.

*City of Clermont*  
MINUTES  
FIREFIGHTER RETIREMENT PLAN BOARD OF TRUSTEES MEETING  
September 14, 2017

*Approval of FY 2018 Administrative Expenses Budget*

Finance Director VanZile presented the projected budget for Fiscal Year 2018. Chairman Lent spoke in favor of approving the projected budget.

Board Member Purvis moved for approval of the Fiscal Year 2018 budget; seconded by Board Member Moore. The motion passed unanimously.

*Discussion of Request to Change the Share Plan Distribution Method*

Finance Director VanZile stated retiree Paul Anderson is requesting the Board to change the allocation of the Share Plan distribution to provide retirees with a portion of the Share Plan distribution. Mr. Anderson was offered, and accepted, a lump sum payout upon his retirement. Mr. Anderson requested and accepted the lump sum payout before the Share Plan distributions.

Attorney Jensen stated the Board needed to determine if Mr. Anderson was to be considered as part of the Share Plan due to his acceptance of the lump sum payout prior to the Share Plan distribution. Attorney Jensen would like to review the Florida Statutes and the Share Plan.

Chairman Lent commented since Mr. Anderson chose a lump sum payout, he would not be a Share Plan participant.

Board Member Moore moved to have Attorney Jensen investigate Mr. Anderson's eligibility; seconded by Board Member Purvis. The motion passed unanimously.

*Discussion of Firefighters Union Request to Obtain Actuarial Cost Study for Benefit Changes*

Chairman Lent stated he contacted Attorney Jensen and Finance Director VanZile regarding who would pay for the Firefighters Union request to obtain an actuarial cost study for benefit changes to the pension plan.

Attorney Jensen stated if the Firefighters Union and the City are both requesting the study, then both the City and the Firefighters Union should pay for the study.

Board Member Moore moved for approval to pay for the study; seconded by Board Member Watkins. The motion passed unanimously.

Finance Director VanZile clarified the City will return before the Board depending on the negotiations and if additional cost studies are required.

**PLAN ADMINISTRATOR REPORT**

*Discussion of the Investment Performance Report for Quarter Ending June 30, 2017.*

Jeremy Langley presented the Investment Performance Report for the quarter ending June 30, 2017.

Chairman Lent asked of sending out the initial share plan distribution to the participants. Mr. Langley will look into the matter.

*City of Clermont*  
MINUTES  
FIREFIGHTER RETIREMENT PLAN BOARD OF TRUSTEES MEETING  
September 14, 2017

**ATTORNEY REPORT**

Attorney Jensen presented information on legislative actions during the 2017 Legislative Session.

Attorney Jensen asked of attending the meeting through a video cyber meeting. Finance Director VanZile will discuss the possibility with the Information Technology Department.

**BILLS AND EXPENSES FOR APPROVAL**

*Approval of Plan Expenses*

Finance Director VanZile presented the following expenses for approval:

|                              |            |
|------------------------------|------------|
| Bill #20040                  | \$25.00    |
| Quarterly Fees               | \$5,445.05 |
| C Parker Benefit Calculation | \$375.00   |
| Legal Services               | \$300.00   |
| Bill #20332                  | \$25.00    |
| Legal Services               | \$250.00   |

Chairman Lend indicated Mr. Parker was a part time volunteer. Finance Director VanZile will look into the matter.

Board Member Purvis moved for approval; seconded by Chairman Lend. The motion passed unanimously.

**ADJOURN:** With no further comments, this meeting was adjourned at 2:57pm.

## Florida Municipal Pension Trust Fund – DB 60/40 Allocation

### Executive Summary

As of September 30, 2017

#### **60/40 Allocation**

- ◆ Capitalizing on continuing equity market strength in the third quarter, the 60/40 Allocation rose 3.2%. This performance was in line with the target index as favorable relative performance, particularly within the large cap value and enhanced index options, aided comparisons.
- ◆ Recent results have erased the underperformance of this allocation compared to objectives over the past year, with the allocation now up 13.4% over the past year vs. 11.0% for the target index and 11.6% for the public fund peer group.
- ◆ Over the past 10 years, this allocation is up 5.6% on average annually. While this performance is modestly behind the index, it is ahead of the peer group and the risk controlled nature of many of the underlying strategies should provide downside protection should the markets moderate.

#### **FMLvT Broad Market High Quality Bond Fund**

- ◆ The Broad Market High Quality Bond Fund value on September 30, 2017 was \$134 million. The portfolio is in compliance with stated guidelines.
- ◆ The Broad Market High Quality Bond Fund modestly underperformed the BloomBar Capital Aggregate A+ Index in the third quarter (0.5% vs. 0.7%) as the modest duration and minimal corporate exposure provided a headwind during this period of time.
- ◆ The fund has displayed a consistent pattern of performance, posting absolute returns of 3.8% on average annually over the past 10 years. These results were modestly below objectives as the high quality focus provided a headwind, particularly over the past several years.
- ◆ The portfolio's conservative risk profile and high quality bias are in line with the objectives for this fund. This bias has rewarded investors in the form of a more favorable relative risk-adjusted return comparison over the long-term.

#### **FMLvT Core Plus Fixed Income Fund**

- ◆ The Core Plus Fixed Income Fund value on September 30, 2017 was \$166 million.
- ◆ The Core Plus Fixed Income Fund generated the strongest returns in the FMLvT fixed income line-up over the past year, rising 8.1% which was significantly ahead of the BloomBar Multiverse Index (down 0.6%) and the core plus bond manager peer group (up 2.0%).
- ◆ In the 3 years since inception, this fund has generated returns of 2.8% on average annually, well ahead of the index (up 1.6%) due to the benefits of diversification away from the modestly performing US treasury security segment of the marketplace.
- ◆ One of the managers for this fund, Pioneer, closed on its previously disclosed acquisition by Amundi, with this new alliance providing strong financial backing for Pioneer's business. The early indications are that the Pioneer business model remains unchanged, although we will continue to monitor the situation to ensure a smooth transition.
- ◆ The Core Plus Fixed Income Fund was added to the FMLvT lineup in April 2014 to provide broad global fixed income exposure, through equal allocation to two strategies (Amundi Pioneer Multi-Sector Fixed Income Fund and the Franklin Templeton Global Multi-Sector Plus Fund).

#### **FMLvT High Quality Growth Equity Fund**

- ◆ The High Quality Growth Equity Fund value on September 30, 2017 was \$62 million. The portfolio is in compliance with most stated guidelines, with the exception that cash was elevated at the end of the month due to sales of securities to fund a new emerging market allocation. The cash was deployed in early October wherein the fund was back in compliance with all stated objectives.
- ◆ The High Quality Growth Equity Fund posted strong returns in the third quarter, rising 4.6%, although keeping pace with the Russell 1000 Growth Index and the peer group of large cap growth managers as modest exposure to the surging technology sector held back returns.
- ◆ This strategy has struggled to keep pace with the very strong equity market over the past several years, which has moderated the longer-term return profile. Strong equity markets during most of this period served to downplay the historic downside protection of this strategy.
- ◆ The high quality and growth oriented focus of this strategy positions this fund to provide consistent performance over long periods of time, while also representing a strong complement to the large cap value-oriented strategy within the FMLvT lineup.

---

## Florida Municipal Pension Trust Fund – DB 60/40 Allocation

### Executive Summary

As of September 30, 2017

#### **FMIvT Diversified Value Fund**

- ◆ The Diversified Value Fund value on September 30, 2017 was \$61 million. The portfolio is in compliance with most stated guidelines, with the exception that cash was elevated at the end of the month due to sales of securities to fund a new emerging market allocation. The cash was deployed in early October wherein the fund was back in compliance with all stated objectives.
- ◆ The Diversified Value Fund rose 4.0% in the third quarter, in line with the large cap value manager peer group and ahead of the Russell 1000 Value Index (up 3.1%) as strong stock selection and exposure to the technology sector benefitted performance during this period.
- ◆ This strategy has offset the performance challenges experienced early last year with a strong rally this year, up 24.0% compared with the 15.1% rise in the benchmark, and ranking in the top 6th percentile of its peer group during this time frame.
- ◆ While performance for this strategy can be volatile, its focus on economic principles and valuations as the key drivers of stock selection, not momentum or growth, provides a strong complement to other large cap managers in the FMIvT lineup.

#### **FMIvT Russell 1000 Enhanced Index**

- ◆ The Russell 1000 Enhanced Index Fund strategy value on September 30, 2017 was \$179 million.
- ◆ The Russell 1000 Enhanced Index Fund was up 5.3% in the third quarter, compared to returns of 4.5% for both the Russell 1000 Index and the large cap core equity managers as strong stock selection particularly in financials and industrials bolstered returns.
- ◆ This strategy has offset the performance challenges early last year with a strong rally over the past year, rising 20.5% compared with a 18.5% advance in the benchmark, and ranking in the top 26th percentile of its large cap core equity peer group during this time frame.
- ◆ This enhanced large cap strategy is focused on producing a consistent enhancement to the Russell 1000 Index, and has achieved this objective over the long-term, outperforming the benchmark by over 50 basis points on average annually over the past 10 years.

#### **FMIvT Diversified Small to Mid Cap Equity Fund**

- ◆ The Diversified Small to Mid Cap Equity Fund value on September 30, 2017 was \$121 million. The portfolio is in compliance with stated guidelines.
- ◆ On the heels of a few challenging quarters last year, this strategy rebounded sharply year-to-date, advancing 15.6% compared with the 11.0% return for the Russell 2500 Index. During this period, this strategy ranked in the top decile of its small cap manager peer group.
- ◆ This strategy has generated very strong results over the past 10 years, rising 12.8% on average annually compared with 8.1% for the benchmark. Furthermore, the fund ranked in the top 2nd percentile of its peer group, with a more modest risk profile and very strong risk-adjusted returns.

#### **FMIvT International Equity Portfolio**

- ◆ The FMIvT International Equity Portfolio value on September 30, 2017 was \$89 million.
- ◆ In light of the resurgence in the international equity markets, the FMIvT International Equity Portfolio turned very strong year-to-date, rising 24.2% and outpacing both the MSCI ACWI ex-US Index (up 21.6%) and the ACWI ex-US Core Equity peer group (up 23.8%).
- ◆ The manager for this strategy was changed to Investec in October 2014. Offsetting the weakness displayed early in 2016, this strategy has rallied strongly in the past year, up 21.2% which was ahead of both its benchmark and peer group.
- ◆ This strategy is intended to provide strong diversification across the broad spectrum of equity markets outside the US, with exposure to both developed and select emerging markets.

**Florida Municipal Investment Trust**  
***Protecting Florida Investment Act - Quarterly Disclosure***  
*As of September 30, 2017*

This Disclosure is intended to provide information with respect to Chapter 175 and 185 Police and Fire Plan's required disclosure of direct or indirect holdings in any "scrutinized companies" as defined in the FSBA PFIA Quarterly Report for Quarter 2 2017.

It is important to note that individual Police and Fire Plan's have no direct interests in any scrutinized companies. Police and Fire Plan's hold an interest in the Florida Municipal Pension Trust Fund. It is also important to note that the Florida Municipal Pension Trust Fund has no direct interests in any scrutinized companies as all of its interests are invested in the Florida Municipal Investment Trust.

The Florida Municipal Investment Trust is the only entity that could possibly have direct interests in any scrutinized companies. ACG has reviewed the **Protecting Florida's Investments Act (PFIA) Quarterly Report-June 14, 2017** that is available on the Florida SBA website. In particular we have reviewed the list of companies appearing in **Tables 1 and 3- Scrutinized Companies with Activities in Sudan and Iran**, and compared these lists to securities of companies held directly by the Florida Municipal Investment Trust. As of 6/30/17, the Florida Municipal Investment Trust had no direct interest in securities on the above referenced lists.

ACG also requested that investment managers, who manage commingled funds that are owned by the Florida Municipal Investment Trust, review the **Protecting Florida's Investments Act (PFIA) Quarterly Report- June 14, 2017** and disclose whether the Florida Municipal Investment Trust may hold any scrutinized companies indirectly through investment in their respective commingled funds. They have confirmed that they do not hold any of these securities.

## Global Long-Only Equity

Equity markets continued to experience **strong positive performance** in 3Q-17 as accommodative monetary policy, potential fiscal stimulus, optimistic sentiment, and company earnings growth help sustain the current **global economic expansion** despite bellicose geopolitical events, contentious elections, and devastating natural disasters.

Domestic Large Cap indices were positive for the quarter. However, the performance was not as robust as seen in 1Q-17 and the drastic **outperformance of Growth over Value** stocks was not as pronounced in 3Q as it was in the first half or 2017.

Domestic **Small Cap sentiment was buoyed by progress toward potentially passing Federal tax reform** measures (including lower corporate tax rates) which would aid small companies that have fewer opportunities for OUS tax sheltering and engineering. This resulted in a strong rally in performance that was **heavily weighted to the month of September**.

Both **International Developed and Emerging Markets indices continued to lead global equity performance** in the quarter. Cyclical sectors did well in Q3, as Information Technology strength continued, while Materials growth accelerated during the period. Energy names rebounded significantly in both developed and emerging geographies. Following a strong 1H, defensive sectors such as Consumer Staples and Healthcare were flat.

### YTD Index Returns

Sources: Bloomberg, ACG Research

## Global Long/Short Equity

### Volatility Remains Muted

Sources: Bloomberg, ACG Research

Investor complacency is high as **volatility** continues to be at **historical lows**. As measured by VIX, volatility dropped to its lowest level since 1990. Since 1990 VIX has had only 33 days of being in single digits, and 24 of those days have been in 2017. This is not expected to continue, and the **anticipation of increased volatility** has prompted managers to reduce their net exposure to below historical averages. Gross exposure has remained on the high end of historical averages, hitting near-peak levels since 2010. This low net/high gross position signifies optimism that fundamentals will matter and the gap between winners and losers will get wider (the combination of an **increase in volatility** as well as dispersion in the market provides managers the **opportunity to potentially make money on both longs and shorts**).

**Growth opportunities in Europe** have prompted equity long/short managers to continue increasing their European investments. For the first time since before 2010 the net **exposure** of managers is now **higher in Europe than in North America**. Eurozone consumer confidence remains high and we anticipate this to remain an area of opportunity for the foreseeable future.

There is a positive reaction to the President's **tax reform** proposal as investors anticipate the plan will improve corporate profitability and stimulate economic growth. M&A activity has continued, especially in sectors of **health care** and **technology**, prompting managers to have increased exposure in both of these areas.

## Global Private Equity

Much like public markets, valuations remain high for new deals in private markets. The **median acquisition price for a private equity-backed company purchased in H1 2017 was 10.8x EBITDA**. This is up from 10.0x EBITDA in 2016, and higher than the transaction multiples of 2007, the end of the last buyout boom. Although purchase price multiples are a full turn higher than 2007, the composition of the price is much different today. The average buyout in 2007 was financed with 69% debt compared to the 60% debt used in buyouts completed in H1 2017. Factoring in the much lower debt servicing costs (average 3-month LIBOR was 1.1% in H1 2017 compared to 5.3% in 2007), the buyouts of 2017 should be in better position to weather a downturn than the buyouts of 2007. Still, **high purchase prices today are likely to translate into lower returns going forward**. The best managers recognize that **high multiples are unlikely to continue indefinitely and that asset selection is key to driving good investment outcomes** in this environment.

Private equity fundraising continued its torrid pace in 2Q 2017. Preqin reported that **206 private equity funds secured a final close during the quarter, raising an aggregate \$121 billion** in capital commitments. Buyout funds were particularly successful, raising \$88 billion, the largest amount of any second quarter in the last five years. Venture capital funds were less successful and saw the smallest amount of capital raised of any second quarter in the last three years (\$16 billion). Including the \$23.5 billion Apollo buyout fund that closed shortly after quarter-end, **2017 could exceed the fundraising high water mark of \$267 billion set in 2007**.

## U.S. LBO Purchase Price Multiples

Sources: S&P Capital IQ, ACG Research

## Global Real Assets

### U.S. Real Estate Cap Rate Spread to Treasuries

Sources: Bloomberg, Real Capital Analytics, ACG Research

**Real estate assets continued their impressive streak of gains** even as many investors question whether the momentum is sustainable in the face of a rising rate environment. After a post-election rise to 2.45% at year-end, 10-year Treasuries were yielding 2.33% at the end of 3Q 2017 even as the Fed raised short-term rates twice during this period. The majority of investors view real estate as a longer-term asset class, making comparisons to 10-year rates more meaningful than comparisons to short-term rates. Fundamental indicators remain strong as **occupancy, lease rates and NOI continue to support real estate returns**. **Strong investor appetite for yield-oriented investments has driven average cap rates down 32 basis points since year-end 2016**. The current spread of 369 bps is 230 bps higher than the pre-recession low suggesting that **U.S. real estate still has room to run**.

A weakening US dollar provided a tailwind for commodities during the quarter as most commodities are priced in USD. **OPEC's production cuts have been more rigidly adhered to than most observers thought possible and global demand growth appears to remain solid**. The result is that oil prices increased 12.2% in 3Q, closing at \$51.67 per barrel. Potential supply disruptions in the Middle East could also provide support for oil prices going forward. Gold, which peaked at \$1,350 per ounce, closed the quarter at \$1,282, up 3.2% during the quarter. **Future gold prices will likely be driven by two competing forces – Fed interest rate hikes (bearish) and geopolitical volatility (bullish)**.

## Global Traditional Bond Markets

The **Federal Reserve's** rate hiking campaign was put on hold in 3Q-17, with ongoing policy normalization transitioning toward quantitative tightening (QT). Beginning in October, the Fed's \$4.5 trillion stockpile of assets will begin to dwindle in accordance with a well-telegraphed schedule of reinvestment caps. As **projections still include a 25 bps hike in December along with three more in 2018**, the US Treasury market adjusted meaningfully in the final weeks of the quarter. The domestic yield curve continued to flatten, as two-year rates progressed higher even as longer-term rates stayed relatively well anchored by muted growth/inflation assumptions. Unanticipated eagerness on the part of the FOMC, or other prominent central bankers, remains a tail risk that could prompt a shift in asset prices.

The **BloomBar Aggregate** was solidly positive during the quarter. All categories contributed, but IG corporates continue to lead as credit spreads ended at year-to-date tight.

**High Yield** encountered some resistance in August, but finished the period well as investors adopted a more risk-on posture. Spreads are now more than 60 bps tighter since the end of 2016, and careful security selection is warranted with sub-5.5% yields overall.

**Municipal Bonds** continued to pace ahead, with tax-exempt issues benefitting from steady demand and low issuance fueled by a collapse in re-financing deals. The yield ratio versus US Treasury bonds is especially rich for shorter-dated issues, and credit spreads are thin.

**Unhedged Global** government bonds outperformed domestic counterparts as the US dollar's decline aided returns. Outcomes in **Emerging Markets** remained particularly strong.

### Current Rate Hiking Cycle

Sources: Bloomberg, ACG Research

## Global Nontraditional Fixed Income

### Percentile Rankings of Observations for Past 15-Years

Sources: Bloomberg, ACG Research

**Liquid Absolute Return** strategies collectively outperformed traditional bond benchmarks during 3Q-17, with the median manager exceeding the BloomBar Aggregate by about 30 bps. The diversification of risk factors remains valuable within portfolios, and trailing 12-month returns have been comfortably within the commonly referenced 90-Day T-Bills +3% to +6% objective. The potential for **enhanced volatility in rates, spreads, and currency should provide opportunities** for tactical managers with a wide range of implementation options.

As investors contemplate limited beta opportunities in the maturing credit cycle, **idiosyncratic alpha generation will be key**. Some credit and event managers have moved cautiously into stressed areas of retail, expressing both constructive and negative views that reflect a dispersion of situations across issuers. While idiosyncratic opportunities have so far been limited by market buoyancy, **we expect absolute return managers will find increasing opportunities in challenged sectors of the market** if valuations stretch higher. Eventually, we expect relative value trading and alpha-focused strategies to become more prominent in attribution.

**Private Credit** strategies offer the opportunity to earn both a credit spread and an illiquidity premium (typically five-ten year terms) versus publicly traded fixed income strategies. **Fundraising in the sector remains very strong**. Continuing the theme of traditional banks leaving non-core business lines, direct lending strategies enjoyed the greatest fundraising success in the quarter. Distressed strategies have not seen much opportunity as the overall default environment remains well below crisis levels. However, economic expansions historically last five years and we are eight years into the current expansion. **The proliferation of covenant-life leveraged loans, in addition to an aging economic expansion, could lead to a robust opportunity set for distressed strategies in the coming quarters.**
